## THE MILWAUKEE SANITARIUM

FOR NERVOUS AND  
MENTAL DISEASES

Situated in the beautiful suburb, WAUWATOSA, WISCONSIN.

The new buildings and other improvements recently made, together with the well known facilities previously in use, provide an equipment of great completeness.

An especial merit is the wide separation of FIVE different houses, giving individualized treatment and environment for all.

Those desirous of the best are invited to investigate. Long record of success in nervous and mental cases. Dr. Dewey in personal charge.

Ideally beautiful grounds (22 acres) "set on a hill." Modern bath house. All approved uses of water, electricity, heat, light, etc.

The Sanitarium is secluded yet convenient of access. On C., M. & St. P. R'y, 2½ hours from Chicago; 15 minutes from Milwaukee. Two lines street cars, 5 minutes walk from all cars. Address

CHICAGO OFFICE, Venetian Bldg.,

# THE HANOVER HOSPITAL, Madison and MILWAUKEE, WIS.

Long Distance Telephone South 480.

A High Class Private Hospital for the Reception of Medical and Surgical Cases.

Conveniently located in one of the best residence districts of the city, this institution offers accommodations which are superior in every respect and combine the comforts and luxuries of the home with the strict appointments of modern sanitary science.

The apartments are light and well ventilated, heated by an improved hot water system. Hardwood floors throughout; furnishings elegant and appropriate. Trained nurses of superior skill are in charge of the patients and the diet is the best.

The operating rooms are specially fitted with all modern appliances for aseptic surgery. A competent physician is in attendance at all hours.

For further information address W. F. MALONE, M. D., Physician and Surgeon in Charge. Richard Dowd, M.D. House Physician and Surgeon; Miss Rebecca Johnson, Superintendent of Hospital and Training School for Nurses. 324 MADISON STREET.

## WYOMING.

CAPITAL, CHEYENNE.

Population of State, 101,816.

(State Census, 1905.)

Number of Physicians, 232.

Wyoming was organized as a Territory in 1868, from what was then the southwestern portion of Dakota, north-eastern part of Utah and eastern part of Idaho. On July 10, 1890, the territory was admitted as a state by Act of Congress, being the forty-fourth state in order of admission.

Its geographical location classes it among the states of the inter-mountain or arid region, being bounded on the north by Montana, on the east by Dakota and Nebraska, on the south by Colorado and Utah, and on the west by Utah, Idaho and Montana. Its length from east to west is 355 miles; width from north to south 276 miles, and it has an area of 97,899 square miles, or 62,645,120 acres. In general appearance the country is mountainous, with valleys, rolling plains and plateaus, the

latter covered with grasses of great nutrition, and furnishing admirable pasture for live stock, while the main elevation is 6,000 feet above sea level, with extremes ranging from 3,000 to 14,000 feet. Probably 10,000,000 acres of the total area of the state are covered with timber. Flowing east or west, according as their source is on the eastern or western slope of the main range of the Rocky Mountains, which cross the state from north to south, are numerous streams, among the number being the North Platte, Snake River, Green, Big Horn, Laramie and Yellowstone. None of these streams are navigable in a commercial sense, but they furnish water for the irrigation and development of the surrounding country and in some instances are used for the transportation of timber. The soil is a light sandy loam, darker and richer in the valleys. When reclaimed by the application of water, bountiful returns of agricultural products with the exception of such as thrive only at low altitudes and warm, damp climates are

secured. It is estimated that 10,000,000 acres of the area of the state are suitable for agricultural purposes by irrigation.

The climate is similar to that of the mountain region generally, and is not, as sometimes erroneously supposed, extraordinarily severe in the winter. The average mean temperature for the year is about 44 degrees, varying somewhat according to elevation, and the atmosphere is rarified and pure, with but few cloudy days. High winds sometimes prevail during the spring and fall, but cyclones and tornadoes are unknown, while the dryness of the atmosphere tends to ameliorate the effects of extreme cold.

## WYOMING MEDICAL LAW.

Chapter 45, Session Laws of 1905. House Bill No. 71.

### Board of Medical Examiners.

AN ACT to amend and re-enact Chapter 5, Division 1 Title XVI, Revised Statutes of 1899, relating to the State Board of Medical Examiners.

Be it enacted by the Legislature of the State of Wyoming:

### APPOINTMENT OF BOARD.

Section 1. The governor, by and with the consent of the senate, shall appoint three regularly licensed physicians of the State of Wyoming, who shall constitute the State Board of Medical Examiners, and who shall hold office for a term of four years. Any vacancy which may occur in said board from any cause shall be filled by appointment by the governor, and the physician so appointed shall hold his office until the expiration of the term.

## ORGANIZATION.

Section 2. The members of the said board of medical examiners shall meet and organize within thirty days after their appointment by taking an oath faithfully to discharge the duties of their office, which oath shall be filed with the secretary of state, and by the election of a president, a vice president and a secretary. They shall provide such blanks and certificates as are necessary to comply with the provisions of this act, and an appropriate seal, which shall be attached to all official papers issued by said board, and they shall from time to time adopt such rules and regulations as shall be deemed necessary in the performance of their duties consistent with the requirements of this act.

## DUTIES.

Section 3. It shall be the duty of the said board to pass upon the qualifications and determine the fitness of all persons who may desire to practice medicine, surgery and obstetrics, or who may publicly profess in any manner to assume the responsibility of the care or treatment of disease, injury or deformity of human beings in the state.

## REQUIREMENTS.

Section 4. Every person wishing to practice medicine in any of its departments in this state shall possess the qualifications required by this act. He shall be a graduate from a regularly chartered college of the system which he claims to practice. Said college must be recognized by the State Board of Health or the State Board of Medical Examiners of the state in which it is located. He shall give evidence of the fact that he is a person of good moral character, and that he shall not be the victim of such habits as shall cause him to endanger the lives of those entrusted to his care. He shall present his diploma to the State Board of Medical Examiners for verification as to its genuineness. Said certificate shall consist in the affidavit of the holder of the diploma that he is the lawful possessor of the same and that he is the person therein named. Such affidavit may be taken before any person authorized to administer oaths, and the same shall be attested under the hand and seal of such officer. He shall appear before the State Board of Medical Examiners in person at a time and place appointed, and shall pass an examination sufficiently strict to test his qualifications as a practitioner. Said examination may be in whole or in part in writing. It shall be of an elementary and practical character, and shall be upon the following subjects: Anatomy, physiology, chemistry, and toxicology, pathology, physical diagnosis, gynecology, the principles of surgery, obstetrics, hygiene and bacteriology. He shall further be required to pass an examination in such branches as are necessary to complete the system of which he is a practitioner. If the applicant is a practitioner of any school or system not represented in the membership of the board, the board shall have authority to call a regularly licensed practitioner of that system to assist in the examination. The practitioner thus called shall receive a compensation of five dollars for each person examined. An average grade of seventy-five per cent. in all branches of the examination shall be required; provided, that the applicant shall not pass lower than sixty per cent. in any one branch. Said examination shall be conducted by and under the supervision of the secretary of the board, with such assistance from the other members as shall be agreed upon by them. Said examinations shall be held at stated periods to suit the convenience of the board and applicants; provided, that not more than four examinations shall be held in any one year.

The president and secretary of the State Board of Medical Examiners shall issue certificates to all persons who successfully pass said examinations, and such certificates, after being duly recorded as hereinafter provided, shall be deemed license to practice medicine in all branches in which the applicant has taken examination in this state. No application for license to practice medicine in this state shall be rejected because of adherence to a particular school of practice. All persons who are licensed practitioners in this state prior to the passage of this act shall be exempt from its requirements.

## APPLICATIONS—FEES.

Section 5. The State Board of Medical Examiners shall receive through its secretary, applications for certificates and examinations. A fee of twenty-five dollars shall accompany each application. Should the applicant fail to pass the examination, he may present himself at any time within a period of one year for another examination without the payment of an additional fee.

## ADMISSION WITHOUT EXAMINATION.

Section 6. Said board may, in its discretion, accept and register, upon payment of the registration fee, and without examination of the applicant, any certificate which shall have been issued to him by the medical examining board of the District of Columbia or of any state or territory of the United States. Provided, however, that the legal requirements of such medical examining board shall have been, at the time of issuing such certificate, in no degree or particular less than those of Wyoming at the time when such certificate shall be presented for registration to the board created by this act; and, provided, further, that the provisions in this section contained shall be held to apply only to such of said medical examining board as accept and register the certificates granted by this board without examination by them of the ones holding such certificates.

## WHO ARE PRACTICING PHYSICIANS.

Section 7. Any person shall be regarded as practicing medicine, within the meaning of this act, who shall in any manner hold himself out to the public as being engaged within this state in the diagnosis and treatment of diseases or

injuries or deformities of human beings; or who shall suggest, recommend or prescribe any form of treatment for the intended palliation, relief or cure of any physical or mental ailment of any person with the intention of receiving therefor, either directly or indirectly, any fee, gift or compensation whatsoever; or who shall maintain an office for the reception, examination and treatment of any person suffering from disease or injury of body or mind; or who shall attach the title of M. D., surgeon, doctor or any other word or abbreviation to his name indicative that such person is engaged in the practice of medicine as hereinbefore defined.

## EXAMINATION PAPERS.

Section 8. The examination papers of applicants, when placed in the hands of the secretary, shall become the property of the state and shall remain in the possession of the State Board of Medical Examiners, and the questions and answers of any examinations, together with the gradings thereon, shall be subject to inspection at any time at the secretary's office.

## CERTIFICATE TO BE RECORDED.

Section 9. Every person holding a certificate as having successfully passed an examination before said board of medical examiners shall have the same recorded at the office of the county clerk of the county in which he resides, and the date and place of record shall be endorsed thereon. Any person moving to another county to practice shall procure a certificate to that effect from the county clerk, and the holder of the certificate shall pay to the county clerk the usual fees for making the record.

## RECORD OF COUNTY CLERK.

Section 10. The county clerk shall keep in a book provided for that purpose a complete list of all the certificates recorded by him, with the date of issue.

## MEDICAL FUNDS.

Section 11. The fees received by the said board of medical examiners from examination shall be kept in a fund to be known as the medical fund, and shall be subject at all times to the warrant of the state auditor drawn upon written requisition of the president and attested by the secretary of the State Board of Medical Examiners, with seal attached, for the payment of any expenses made by said board.

## REFUSAL OF CERTIFICATE.

Section 12. Said board of medical examiners may refuse certificates to individuals guilty of malpractice or dishonorable conduct, or who shall have been convicted of penal offences before any court in this state or elsewhere; or may revoke certificates for like causes, such revocation being after due notice and trial by the board of medical examiners, subject to the right of an appeal to the district court of the county in which said individual resides; but no such revocation shall be made by reason of the individual's belonging to or practicing any particular school or system of medicine.

## APPLICATION OF THIS ACT.

Section 13. Nothing in this act shall be construed to prohibit gratuitous service in case of emergency, and this act shall not apply to commissioned surgeons of the United States army or navy, or medical examiners of relief departments of railroad companies, while so employed, or any lawfully qualified physicians residing in other states or counties meeting registered physicians of this state in consultation, or any physician or surgeon residing upon the border of a neighboring state, and duly authorized under the laws thereof to practice medicine and surgery therein, whose practice extends into the limits of this state. This act shall apply to apothecaries and pharmacists who prescribe for the sick.

## PENALTY.

Section 14. Any person practicing medicine within the meaning of this chapter in this state without complying with the provisions of this act shall be deemed guilty of misdemeanor and punished by a fine of not less than fifty dollars nor more than three hundred dollars, or by imprisonment in the county jail for not more than one year, or both; and each person filing, or attempting to file as his own, the diploma of another or a forged affidavit of identification shall be guilty of felony, and upon conviction thereof shall be imprisoned in the penitentiary for a term not exceeding three years.

## EXAMINATION OF MIDWIVES.

Section 15. The State Board of Medical Examiners shall examine all persons upon the theory and practice of obstetrics who profess to practice obstetrics and midwifery, who do not have authority to practice medicine or surgery; and they may issue to such candidates and person or persons who shall pass a satisfactory examination, certificates which shall authorize and empower them to practice obstetrics or midwifery. No person shall practice obstetrics or midwifery unless either a practicing physician or authorized to practice under the provisions of this act, or holding such certificates as are prescribed by this section; provided, that nothing in this section shall be construed to prohibit persons from rendering services in cases of obstetrics or midwifery in cases of emergency.

## SALE OF MEDICINE BY ITINERANT.

Section 16. Any itinerant who has not qualified as hereinbefore provided, who shall sell or offer for sale any drug, nostrum or appliance of any kind intended for the treatment of any disease or injury or deformity, or for correction of impairment of vision or hearing, or shall by writing, printing or other method, except by

## SALARY OF SECRETARY.

Section 17. The secretary of said board shall be paid a salary which shall be compensation for the actual work done in the performance of the duties of his office, the amount thereof to be fixed by the board, not to exceed the sum of twenty-five dollars per month, the same to be paid out of the medical fund by warrants drawn by the state auditor upon there being filed with the state auditor a certificate to be signed by the president and secretary of the board, with the seal of the board attached, showing that the secretary has acted in that capacity for the time for which his bill is presented. The other members of the board shall receive the sum of ten dollars per day while actually employed in attending meetings of the board, or in carrying out the provisions of this act. Members of the board shall also receive their actual traveling and necessary expenses while engaged in the performance of their duties, to be paid out of the medical fund upon warrants to be issued by the state auditor, and all bills therefor shall be accompanied by a certificate signed by the president and secretary of the board, with the seal of the board attached, attesting the correction of the bill.

## ACTS INCONSISTENT.

Section 18. All acts and parts of acts inconsistent with the provisions of this act are hereby repealed.

Section 19. This act shall take effect and be in force from and after its passage. Approved February 15th, 1905.

## TERRITORY OF HAWAII.

CAPITAL, HONOLULU.

Population of Territory, 165,000.  
Number of Physicians, 87.

The Hawaiian Islands are situated in the Torrid and Temperate Zones just on the Tropic of Cancer. They extend from northwest to southeast between parallels of latitude 22 degrees 16 minutes and 18 degrees 55 minutes north and lie between meridians 154 degrees 40 minutes and 160 degrees 30 minutes west from Greenwich. The important islands are eight in number—Niihau, Kauai, Oahu, Molokai, Maui, Lanai, Kahoolawe and Hawaii. This group is also known as the Sandwich Islands, but now in disuse except abroad. The total area of all the islands in the group is 6,649 square miles or 4,127,000 acres. The situation of the Territory of Hawaii insures for it the happiest possible compromise between the climates of the two zones. Extremes of heat and cold are not felt, the mean annual average temperature as observed at Honolulu being about 72 degrees.

## MEDICAL LAWS OF HAWAII.

### LICENSE IS REQUIRED.

Section 827 P. L. No person shall practice medicine or surgery as a profession in the Territory of Hawaii, either gratuitously or for pay or shall offer to so practice, or shall advertise or announce himself, either publicly or privately, as prepared or qualified to so practice without having first obtained from the treasurer under seal of his department a license in form and manner substantially as hereinafter set forth. Such license shall only be granted upon the written recommendation of the board of health.

### ISSUED ON THE RECOMMENDATION OF BOARD OF HEALTH.

All licenses to practice medicine or surgery heretofore granted by the treasurer upon the recommendation of the board of health, and in force at the time of the passage of this act, shall remain in force, subject to the provisions of this act.

### DEFINING THE PRACTICE OF MEDICINE.

Section 828 P. L. For the purposes of this act the practice of medicine shall be held to include the use of drugs and medicines, water, electricity, hypnotism, or any means or method, or any agent, either tangible or intangible, for the treatment of disease in the human subject. Provided, however, that nothing herein contained shall be held to forbid any person from the practice of any method or the application of any remedial agent or measure under the direction or with the approval of a licensed physician.

### MEDICAL EXAMINERS.

Section 829 P. L. No person shall be recommended by the board of health for a license to practice medicine or surgery except upon the written report of a board of medical examiners, to be appointed and constituted as hereinafter provided, setting forth that the applicant named therein has been duly examined and found to be possessed of the necessary qualifications.

### TO BE APPOINTED BY GOVERNOR.

Section 830 P. L. For the purpose of carrying out the provisions of this act, the governor is hereby authorized and directed to appoint a board of medical examiners, whose duty it shall be to examine all applicants for license to practice medicine or surgery, and to report the result of such examination to the board of health.

Such board of medical examiners shall consist of three persons, all of whom shall be licensed physicians or surgeons under the laws of this territory. The first appointment shall be for one, two and three years respectively, and all subsequent

OF NORTH AMERICA.

*Hawaiian Islands* 1981

appointments, unless to fill out unexpired terms, shall be for three years, subject, however, to removal for cause by the governor. The members of the board of medical examiners shall serve without pay.

## APPLICANT TO PAY A FEE OF \$10.

Section 831 P. L. No applicant for license to practice medicine or surgery shall be examined until he shall have paid to the treasurer a fee of ten dollars.

## PENALTY FOR VIOLATING THE STATUTE.

Section 832 P. L. Any person who shall practice medicine or surgery in the Hawaiian Islands, or who shall offer or attempt to so practice, or shall advertise or announce himself, either publicly or privately, as prepared or qualified to so practice, contrary to the provisions of Section 827, shall be guilty of a misdemeanor, and shall be liable on conviction to a fine of not more than two hundred and fifty dollars, in the discretion of the court.

## LICENSE REVOCABLE.

Section 833 P. L. Licenses to practice medicine and surgery, whether granted under the provisions of this act or of any act heretofore existing, may be revoked by the treasurer at any time for professional misconduct, gross carelessness or manifest incapacity; such misconduct, carelessness or incapacity, having been proven to the satisfaction of the board of health, and by that body reported in writing to said treasurer. In case any license is revoked for any of the causes named in this section, the holder thereof shall immediately be notified of such revocation in writing by the treasurer.

Section 834 P. L. In case of an alleged misconduct, carelessness or incapacity on the part of any holder of a license to practice medicine or surgery, the person so charged shall be notified in writing of the charge or charges that have been made, and of the time and place when and where evidence in support of the same will be heard, and shall have the opportunity to present evidence and be heard in his own defense.

Section 835 P. L. The form of license to practice medicine and surgery shall be substantially as follows:

Territory of Hawaii,  
Treasurer's Office.

## LICENSE TO PRACTICE MEDICINE AND SURGERY.

.....a native of.....aged.....years,  
having been duly examined by the board of medical examiners, and having been recommended by the board of health as possessed of the necessary qualifications, is hereby licensed to practice medicine and surgery in the Territory of Hawaii.

This license is granted and accepted on the express condition that it may be revoked at any time for professional misconduct, gross carelessness or manifest incapacity; such misconduct, carelessness or incapacity, having been proven to the satisfaction of the board of health, and by that body reported to the treasurer.

Given under my hand and the seal of the treasurer's office, this.....  
day of....., A. D. ....

(Signed).....  
Treasurer.  
(Signed).....  
Chief Clerk.

Section 836 P. L. Any person who shall attempt the cure of another by any practice of sorcery, witchcraft, anaana, hoopio, hooanauna, hoomanamana, or other superstitious or deceitful methods, shall, upon conviction thereof before a district magistrate, be fined in a sum not less than one hundred dollars or be imprisoned at hard labor not to exceed six months.

## PHILIPPINE ISLANDS.

### CAPITAL, MANILA.

Population of the Islands, 7,635,426.

Number of Physicians, 578.

The total population of the Philippine archipelago on May 2, 1903, was 7,635,426. Of this number 6,987,686 were classed as civilized, while the remainder, 647,740, consisted of wild people. The civilized people, with the exception of those of foreign birth were practically all adherents of the Roman Catholic church; while those classed as wild people, more than two-fifths are Mohammedans, the remaining three-fifths of the wild people belong to various tribes differing from each other in degrees of barbarism.

For the purpose of government the archipelago is divided in provinces, provinces into municipalities and municipalities into barrios. The inhabitants, at the time of the census, were distributed in 39 civil provinces and the sub-province of Marinduque, 9 military districts and one city district, Manila.

The Philippine Islands form a part of the great archipelago known as the East Indies. They lie southeast of the continent of Asia, nearly south of the Japanese Islands and north of Borneo and Celebes; between the meridian 116 degrees 46 minutes and 126 degrees 34 minutes east longitude, and between the

parallels of 4 degrees 10 minutes and 21 degrees 10 minutes north latitude, that is entirely within the tropics.

In addition to the above the United States subsequently acquired from Spain the little group of islands known as Cagayan Sulu and nine other small islands lying off the north coast of Borneo.

The Philippine Islands are structurally connected with Borneo and Celebes by three isthmuses, which are partly submerged. The westernmost of these connects through Mindoro, the Calamianes and Paragua and Borneo. The passages between the southern point of Paragua and Borneo are shallow and much interspersed with islands, the largest of which is Balabac, and by many coral reefs. The second of these isthmuses connects with the northeastern point of Borneo and is continued through the Tawi-Tawi, Siassi, Jolo and Basilau groups to the southwestern point of Mindanao at Zamboanga, and is continued through the Visayan Islands to Central Luzon. Between these two connections lies the Sulu Sea with a maximum depth exceeding 2,000 fathoms. The third and easternmost of these isthmuses connects the northwestern point of the irregular island of Celebes through the Sangail archipelago to the southeastern point of Mindanao, thence its course may be traced north-

ward in a great curve through the easternmost ranges of Mindanao to Leyte and Samar through southeastern Luzon. This encloses the Celebes Sea, which is much deeper than the Sulu Sea. These three lines of elevation converge in Central Luzon and these combined appear to form the mountain system in the northern part of that island. Thus these two seas, the Sulu and Celebes, are nearly enclosed, their connection with the Pacific and with the China Sea being everywhere shallow. It results that their waters are, as a rule, much warmer than those of the adjacent oceans, since warm surface water can only flow through the passages connecting them.

Considering the Philippine archipelago by itself, it may be regarded as having the form of a triangle, open at the base and with its most acute angle pointing northward, this being represented by Northern Luzon and the Batan and Babuyan Islands. The western leg of the triangle is represented by Paragua and dependent islands and the eastern one by the Visayan Islands and Mindanao, with the Sulu Sea lying between them.

The islands and the mountain ranges upon them have in general a trend which may be roughly described as northward and southward, although certain of them, such as that forming the backbone of Paragua, trend nearly northeast and southwest, while others trend to the west of north and to the east of south. The trend of these ranges seem to indicate the direction of the forces which produced the folds and faults which brought these lands above the sea. This is apparently the only indication of system in the archipelago and it may be mere fortuitous.

The following table shows the increase in population since 1858:

1858.....	4,290,381	1887.....	5,984,727
1870.....	4,712,006	1894.....	6,341,426
1877.....	5,567,685	1903.....	7,635,426

The total land surface is, approximately, 115,000 square miles, the average number of persons to the square mile is 67.

## MEDICAL LAWS OF PHILIPPINE ISLANDS

AN ACT regulating the practice of medicine and surgery in the Philippine Islands  
By authority of the President of the United States, be it enacted by the United States  
Philippine Commission, that:

Section 1. The commissioner of public health for the Philippine Islands shall appoint a board of medical examiners for the Philippine Islands, with the advice and consent of the board of health for the Philippine Islands, consisting of three physicians, who shall be graduates of a legally chartered and reputable medical college and shall hold the degree of doctor of medicine. They shall hold office for three years after their appointment, and until their successors are appointed and qualified: Provided, that the first appointees shall be appointed for a period of one, two and three years, respectively, as specified in their respective certificates of appointment from the commissioner of public health; and provided further, that no member of the faculty of any school, college or university where medicine or surgery is taught shall be eligible for appointment on said board. Each person appointed to the board shall qualify by taking and subscribing the following oath of office:

"I, ....., having been appointed a member of the board of medical examiners for the Philippine Islands, do hereby solemnly swear that I am a graduate in good standing of the legally chartered medical college or university at ....., in the city of ....., that I will well and truly perform all the duties of said office, that I will faithfully account for all moneys coming into my hands as such officer, that I will bear true faith and allegiance to the government of the United States, and that I take this oath without any mental reservation whatever; so help me God."

The oath shall be recorded and filed in the office of the secretary of the board of health for the Philippine Islands. The commissioner of public health shall fill any vacancy which may occur on the board within one month after the vacancy occurs, and may remove any member of said board for continued neglect of duty, incompetency, or for unprofessional or dishonorable conduct, with the advice and consent of the board of health for the Philippine Islands.

Section 2. The board of medical examiners shall appertain to the department of the interior, so far as executive action may be required in connection with it. It shall organize immediately after the appointment of its members, and annually thereafter on the anniversary of its first organization, by electing from its members a president, who shall be its chief executive officer, and a secretary-treasurer. It shall procure and keep a seal with which to attest its official acts. The members of the board, except the secretary treasurer, shall receive as compensation the sum of two and one-half dollars (\$2.50) each for each candidate examined and for registration as doctor or licentiate of medicine, and one dollar (\$1.00) each for each candidate examined for registration as undergraduate of medicine or midwife. The secretary-treasurer shall receive compensation at the rate of two hundred dollars (\$200) per year, one-half of which amount shall be paid on the 30th of June and one-half on the 31st of December of each year. The amounts due the members of the board of examiners for compensation shall be paid from insular funds and disbursed by the disbursing officer of the board of health for the Philippine Islands. The secretary-treasurer shall execute a bond for five hundred dollars (\$500) with good and sufficient sureties, which shall be approved by the treasurer of the Philippine archipelago, conditioned that he will pay to the treasurer of the Philippine archipelago all moneys received by him as treasurer, and that he will faithfully discharge all the duties of his office. He shall keep a record of the proceedings of the board and a register of all persons to whom certificates of registration as doctors of medicine, licentiates of medicine, undergraduates in medicine, or midwives, have been granted under the provisions of this act, setting forth the name, age, sex and place of business of each, his postoffice address, the name of the medical college or university from which he graduated or in which he has studied, if any, and the date of such graduation or term of study, together with the time spent in the study of medicine elsewhere, if any, and the names and locations of all institutions which have granted to him degrees or certificates of clinics or lectures in medicine and surgery, and all other degrees granted him from institutions of learning.

Section 3. The board of medical examiners shall meet in the city of Manila for the purpose of examining candidates desiring to practice medicine in the Philippine Islands on the second Tuesday of January, April, July and October of each year, after giving thirty days' written or printed notice of such meeting to each candidate who has filed his name and address with the secretary-treasurer of the board. The board of medical examiners shall issue a certificate of registration to any person who furnishes satisfactory proof of having received a diploma as doctor of medicine from a chartered medical school or college in good standing or a degree as licentiate of medicine and surgery from the St. Thomas University in the city of Manila, or who has received permission to appear before a medical board for examination with a view to obtaining a license to practice medicine, in accordance with the provisions of circular order of the military governor No. 5, issued February 25, 1900, and circular

order No. 6, same authority, issued April 1, 1900, and who shall issue four forms of certificates of registration to persons who have been examined and favorably passed upon by the board. One, for persons holding the degree of doctor of medicine; another, for persons holding the degree of licentiate of medicine; a third, for undergraduates in medicine, or "cirujanos ministrantes;" and a fourth, for midwives. Each certificate shall be signed by a majority of the members of the board. The secretary-treasurer of the board shall collect a fee of fifteen dollars (\$15.00) for each certificate of registration as doctor or licentiate of medicine, and a fee of five dollars (\$5.00) for each certificate of registration as "cirujanos ministrante," or as midwife, issued by the board.

Section 4. The board shall, on or before the 30th of June of each year, make a report to the secretary of the interior of its proceedings during the past year, and of all moneys received and disbursed by it within that period.

Section 5. After March 1, 1902, it shall be unlawful for any person to practice medicine, surgery or midwifery in any of its branches in the Philippine Islands, unless he holds a certificate of registration from the board or has otherwise complied with the provisions of this act. Any person in continuous practice of medicine, surgery or midwifery in any of their branches in the Philippine Islands prior to the passage of this act may become a registered practitioner by submitting to the board of medical examiners for the Philippine Islands a diploma of doctor or licentiate of medicine from a reputable medical school or college: Provided, that any person now a member of the highest class in the St. Thomas University in the city of Manila who shall have pursued his studies in medicine and surgery in the said university for not less than five years, and shall receive a degree of licentiate in medicine and surgery from said university in the month of March, 1902, may likewise become a registered practitioner by submitting to the board of medical examiners such degree on or before the first day of April, 1902. For the purposes of this section a physician who has been in the regular practice of his profession in these islands, but whose practice has been interrupted by trips abroad for study or pleasure only, shall be deemed to have been in continuous practice. Provided further, that any person who has passed the requisite examination before a board of examiners convened pursuant to special orders No. 5, office of the United States military government in the Philippine Islands, dated February 25, 1900, and circular No. 6, same authority, dated April 1, 1900, shall not be required to undergo another examination, but shall be entitled to be registered and to receive a certificate of registration as a licentiate of medicine. The fee for such certificate shall be ten dollars (\$10.00), provided, further, that any person who has studied medicine in the St. Thomas University of the city of Manila for a period of not less than two years, and has received the title of "cirujano ministrante" from said university may be registered to practice medicine in remote towns of a province where no civilian doctor of medicine or licentiate of medicine is available, upon passing a satisfactory examination before the provincial board of health for the province in which he desires to practice and paying to its provincial treasurer a fee of five dollars (\$5.00) for a certificate of registration, which shall thereupon be issued to him by the president of the provincial board of health.

Section 6. Every person hereafter desiring to begin the practice of medicine or surgery in the Philippine Islands shall apply to the board of medical examiners for a certificate of registration as doctor of medicine, and such applicant shall submit to an examination in the following branches, to-wit: Anatomy, physiology, chemistry, materia medica and therapeutics, pathology and bacteriology, hygiene, surgery, practice of medicine, obstetrics, diseases of women and children, diseases of the nervous system, diseases of the eye and ear, medical jurisprudence; and shall present a diploma of doctor of medicine from a medical school or college recognized as reputable by the board of health for the Philippine Islands. Examinations may be written or oral, or both. In case any applicant shall fail to pass a satisfactory examination, he shall not be permitted again to present himself for examination until a period of six months has elapsed.

Section 7. Every person holding a certificate of registration from the board of medical examiners shall have it recorded in the office of the registrar of deeds in the province or provinces within which he may desire to practice, or in the city of Manila, as the case may be, before engaging in the practice of medicine, surgery or midwifery, and until such certificate is so recorded, the holder thereof shall not exercise any of the privileges to practice medicine conferred therein. The holder of the certificate shall pay the registrar the usual fees for recording such certificate.

Section 8. The board of medical examiners may refuse to issue any of the certificates provided for in this act to an individual convicted by a court of competent jurisdiction of any offense involving immoral or dishonorable conduct. In case of such refusal, the reason therefor shall be stated to the applicant in writing. The board may also revoke any such certificate for like cause, or for unprofessional conduct, after due notice to the person holding the certificate, and a hearing, subject to an appeal to the board of health for the Philippine Islands, the decision of which shall be final.

Section 9. Any person shall be regarded as practicing medicine within the meaning of this act who shall treat, operate upon, prescribe for any physical ailment of another for a fee, or who shall represent himself by means of signs, cards, advertisements or otherwise as a physician or surgeon; but nothing in this act shall be construed to prohibit the rendering of services in cases of emergency or the administration of family remedies, or to apply to medical officers of the United States army, the United States navy or the United States marine hospital service, or to physicians and surgeons from other countries, provinces or cities called in consultation, or to actual medical students practicing medicine under the direct supervision of a preceptor who is a registered doctor of medicine.

Section 10. Any person practicing medicine or surgery within the Philippine Islands without first having obtained the certificate of registration herein provided for,

or otherwise contrary to the provisions of this act, shall, upon conviction, be punished by a fine of not more than one hundred and fifty dollars (\$150.00), or by imprisonment for not more than ninety days, or both, in the discretion of the court.

Section 11. Any person desiring to practice obstetrics in the Philippine Islands shall be entitled to a certificate of registration as midwife from the board of medical examiners, upon passing a satisfactory examination and paying to the secretary-treasurer of the board a fee of five dollars (\$5.00). The examination shall be of such a character as to determine the qualifications of the applicant for the practice of midwifery. Any person practicing midwifery in the Philippine Islands without first having obtained the certificate of registration herein provided for, or otherwise contrary to the provisions of this act, shall, upon conviction, be punished by a fine of not more than fifty dollars (\$50.00) for each offense: Provided, that this section shall not be construed to prevent a doctor of medicine or licentiate of medicine who holds a certificate of registration as such from practicing obstetrics, or to prohibit the gratuitous rendering of obstetrical services by a friend or member of the family of the patient, or to prohibit the rendering of obstetrical services by any person in a case of emergency, nor shall it apply to persons practicing midwifery in municipalities where there are no licensed practitioners.

Section 12. No person shall in any way advertise as a doctor of medicine, physician or surgeon, or prefix or append the letters "Dr.," "M. D.," or "M. B." to his name, who has not had duly conferred upon him by diploma or degree from some college, school or board of examiners legally empowered to confer the same, the right to assume title; nor shall any person assume any title, or prefix or append any letters to his name with the intent to represent falsely that he has received a medical degree or license or certificate of registration. Any person violating this provision shall, upon conviction, be subject to a fine of not more than one hundred dollars (\$100.00), or to imprisonment for not more than ninety days.

Section 13. Where the word "dollars" is used in this act, it shall be understood to mean dollars in money of the United States.

Section 14. This act shall take effect on its passage.

Enacted December 4, 1901.

**THE REED SCHOOL FOR NERVOUS AND BACKWARD CHILDREN** succeeds where the public schools fail. Many whom they have refused or expelled as incompetent or unteachable have been rendered fit at the Reed School, and are now attending the public schools with perfect success. Endorsed and recommended by Dr. David Inglis, Prof. Mental and Nervous Diseases, Detroit College of Medicine. For catalogue address **MRS. FRANK A. REED, 382 Hubbard Ave., DETROIT, MICH.** (See other right top lines.)

## PORTO RICO.

CAPITAL, SAN JUAN.

Population (U S Census of 1899), 953,243.

Number of Physicians, 172.

Porto Rico, the smallest of the Greater Antilles, lies to the east of Hatai, being separated from that island by the Mona passage. It stretches from latitude 17 degrees 50 minutes to 18 degrees 30 minutes north; from longitude 65 degrees 30 minutes to 67 degrees 15 minutes west, being thus the easternmost of the Greater Antilles and entirely within the tropics. Its shape is rectangular, its length east and west being slightly over 100 miles and its breadth north and south about 36 miles. Its area, about 3,600 square miles, is three-fourths of that of Connecticut and a little over a thousandth of that of the United States. The island of Porto Rico consists of a range of mountains and hills running east and west, with a maximum altitude slightly over 3,600 feet and sloping toward the coast. The slope of the land is gradual toward the north

but steep and difficult toward the south. The greater portion of the area is high, and from the range of hills which form the water divide of the island hundreds of small rivers and streams flow northward and southward to the coast. The climate of the island is remarkably equable. The temperature very rarely rises to 100 degrees Fahrenheit, and for a long period the average annual temperature has ranged on the northern coast from 78 to 82 degrees. The coolest month in the year is January with a temperature averaging about 75 degrees, while in August, the hottest month, the average is about 82 degrees. While the variation from month to month is but slight, there is considerable difference according to altitude. The temperature in the interior, especially on the higher levels of Aibonito, Cayey and Utuado, is much lower than along the coast. The island has the advantage of a daily sea breeze, and the evenings are mostly cool. During the summer season the temperature rises and there is much rain. The humidity is also very high, averaging in

San Juan about 80 per cent. The rainfall is heaviest on the northern coast, averaging about 60 inches in San Juan and of this rain about 40 inches or two-thirds falls during the summer and autumn months. The island is by its natural conditions adapted for tropical agriculture.

## PORTO RICO MEDICAL LAWS.

AN ACT providing for the organization of a Board of Medical Examiners.

Be it enacted by the Legislative Assembly of Porto Rico:

Section 1. The governor, with the advice and consent of the executive council, shall appoint five learned, skillful and capable physicians, who shall have been residents of the Island of Porto Rico for not less than five years preceding their appointment, who shall constitute the board of examiners for the purpose of this act. The physicians so appointed shall hold their respective office for five years: Provided, that all vacancies occurring shall be likewise filled by appointment by the governor by the advice and consent of the executive council: Provided, also, that the first appointments under this act shall be for the periods of one, two, three, four and five years respectively.

Section 2. The board of medical examiners shall procure a seal, and on the first Tuesday of April of each year elect from among their members a president, secretary and treasurer. Three members of said board shall constitute a quorum. The president and secretary shall have the power to administer oaths and the board to take testimony in all matters relative to its duty under the provisions of this act. The board of examiners shall hold meetings for examinations at the seat of government on the first Tuesday of April and October of each year and at such other times and at the same and other places as the board may determine. The board shall keep a record of all proceedings thereof, and also a register of all applicants for a certificate, with the age of the applicant, time spent in the study of medicine, and the name and location of all the institutions granting to such applicant degrees or certificates of lectures attended in medicine or surgery. The register shall also show whether such applicant was rejected, or has received a certificate under this act; such register shall be prima facie evidence of all the matters therein kept.

Section 3. Every person hereinafter wishing to practice medicine or surgery, or any of the branches thereof, or midwifery, in any of their departments in this Island, shall apply to said board for a certificate or license so to do. Applications from said candidates shall be in writing and accompanied by proof that applicant is a graduate of a medical school or institution in good standing and legally organized, and duly approved by the said Board of Examiners; if the diploma is found genuine, which fact the said Board of Examiners shall determine, and if the person presenting and claiming said diploma be the person to whom the same was originally granted, at a time and place designated by said board, or at a regular meeting of said board, said applicant shall be required to take an examination embracing those general subjects and topics, a knowledge of which is commonly and generally required of candidates for the degree of doctor of medicine by respectable medical colleges in the United States. The examination of those who desire to practice midwifery or any of the branches of medicine and surgery, shall be of such a character as to determine the qualifications of the applicants to practice them. All examinations provided for in this act shall be conducted under rules and regulations prescribed by the board, which shall provide for a fair and wholly impartial method of examination. After examination, such board shall, if the candidate has been found qualified, grant a certificate or license to such candidate to practice medicine and surgery or any of the branches thereof or midwifery in Porto Rico; which said certificate can only be granted by the consent of not less than three members of said board, and which said certificate shall be signed by the president and secretary of said board, and attested by the seal thereof: Provided, however, that all physicians and surgeons who hold certificates granted by the now existing board of medical examiners shall be exempt from the provisions of this section.

Section 4. The board may refuse to grant a certificate on account of unprofessional, dishonorable or immoral conduct. Before a certificate can be refused for such cause, the board shall serve in writing upon the applicant a copy of any charge or charges against him, and appoint a day for hearing, at which the applicant or any witness in his behalf may appear and give testimony in refutation of such charges. In case the board after such hearing shall refuse a certificate to the applicant, the decision specifically stating the grounds upon which such refusal was made shall be reduced to writing and a copy thereof delivered to the applicant upon demand of the applicant. Upon a like hearing the board may refuse a certificate to any one who may publicly profess to cure or treat diseases, injury or deformity in such a manner to deceive the public. The hearing provided for herein shall take place within twenty

days after the service of the copy of the charges upon the applicant unless further time is granted to the applicant, and the decision of the board shall not be later than ten days after the day of hearing. The board shall have power to revoke a certificate or license in case of unprofessional, dishonorable or immoral conduct. Before revoking any certificate or license, a written complaint specifically stating the charges against the person whose certificate is to be revoked shall be delivered to all the members of the board and a copy thereof be served upon such person twenty days before the time fixed by the board for the hearing of said charges. The board must fix the time and the person whose license is to be revoked may produce testimony in refutation of such charges. After such hearing, the decision of the board shall be specifically stated in writing, and a copy thereof delivered, on demand, to the person under charges.

Section 5. Every person obtaining a certificate from the board, must within sixty days from the date thereof, have the same recorded in the office of the secretary of Porto Rico and in the office of the Superior Board of Health. The secretary of Porto Rico and the president of the Superior Board of Health shall indorse upon the certificate the date of record and charge and receive the usual fees for such services, the fees to be paid by the applicant.

Section 6. Applicants who possess diplomas from reputable medical colleges, and who have been licensed by state board, may upon the payment of a fee, twenty-five (\$25.00) dollars, be licensed by the board of examiners without examination if the said board of examiners so decides. Medical officers serving in the army and navy of the United States or in the United States marine hospital service, are exempt from examination, but are required to be registered by the Superior Board of Health and to pay a fee of five dollars.

Section 7. Any person practicing medicine or surgery or any other branches thereof or midwifery within the Island country, contrary to the provisions of this act, be guilty of a misdemeanor, and upon conviction thereof shall be fined not more than five hundred dollars nor less than fifty dollars, or by imprisonment for not more than ninety days nor less than thirty days or by both fine and imprisonment as the court may determine. Any person shall be regarded as practicing within the meaning of this act who shall append the letters "M. D." (for Medical Doctor) to his or her name, who shall profess publicly to be a physician or surgeon, or who shall recommend, prescribe or direct for the use of any person, any drug, medicine, appliance, apparatus or other agency, whether material or not material, for the cure, relief, or palliation of any ailment or disease of the mind or body or for the cure or relief of any wound, fractures or disease of the mind or body or for the cure or relief of any wound, fractures, or bodily injury, or other deformity, after having received, or with the intent of receiving therefore, either directly, any bonus, gift or compensation.

Section 8. The fees for examinations and for a certificate shall be as follows: Ten dollars for an examination in medicine and surgery, and five dollars for a certificate if issued; for all other practitioners five dollars for an examination and five dollars for a certificate if issued. For an examination in midwifery five dollars, and three dollars for a certificate if issued. All fees shall be paid in advance to the treasurer of the board of medical examiners, which fees shall defray the entire expenses of said candidate for examination before the said board of examiners. Any one failing to pass the required examination shall be entitled to a second examination within six months without fee. And the moneys so received shall be turned over to the treasurer of Porto Rico by the treasurer of said board, to be by him deposited in the Medical Board Fund, as hereinafter provided.

Section 9. Each member of the board is hereby allowed the sum of five dollars per day and mileage while in the active and necessary discharge of his duties, and there is hereby established a fund to be known as the Medical Board Fund. The money in such fund shall only be paid out by warrant on said fund on an order drawn by the treasurer of said board, countersigned by the president. The rate of mileage and attendance before said board shall be five cents per mile. And the board must report annually on the first Monday of July to the governor, which report must show all the transactions of the board, giving the number of applications received and from whom received, the number of certificates granted and rejected, and the names of those receiving certificates and those rejected, giving the reasons therefore, the amount of money received, the expenses, the fees and mileage paid, and by whom received, and the amount of money remaining in said fund, and such other information as the governor may require; and the treasurer of said board shall render to the auditor of Porto Rico a monthly account of his receipts and disbursements.

Section 10. After the passage of this bill and the appointment of the board thereunder, the archives and utensils pertaining to the latter sub-delegation of medicine and all documents thereof shall be transferred to the medical board of examiners.

Section 11. All laws, acts, orders and parts thereof in conflict with this act be and the same are hereby repealed.

Section 12. This act shall take effect from and after May 1, 1903.

Approved March 12, 1903.

## MEDICAL LAW OF BRITISH COLUMBIA.

### SYNOPSIS OF REQUIREMENTS.

For the information of those who are not acquainted with the requirements necessary for registration as medical practitioners in this province, the following synopsis is given:

1. Sub-sec. C, Sec. 24, Med. Act, 1898, provides: The council shall admit upon the register any person who shall produce from any college or school of medicine and surgery, requiring at least four years' course of study, a diploma of qualification, provided that where the college or school of medicine did not require a course of study of at least four years, but a post-graduate course has been taken, which in point of time, added to the college or school of medicine course, completes a period of four years, it shall be deemed sufficient; provided, also, that the applicant shall furnish to the council satisfactory evidence of identification, and pass before the members thereof, or such of them as may be appointed for the purpose, a satisfactory examination touching his fitness and capacity to practise as a physician and surgeon.

The council has decided that candidates before presenting themselves for examination shall produce satisfactory proof that they have actually taken and attended a four years' course of medical lectures.

2. Sub-sec. (B), Sec. 24, provides that: The council shall admit upon the register every person mentioned in chapter 48 of the Acts of Parliament of the United Kingdom, passed in the 49th and 50th years of Her Majesty's reign, duly registered under the "Medical Act" (Imperial), prior to and inclusive to the 30th day of June, 1887, upon complying with the orders, regulations or by-laws of the council, and giving due proof of such registration, and that the person applying for registration has not lost the benefit of the same, by reason of misconduct or otherwise.

3. Every person applying for registration under Sub-sec. C, Sec. 24, Medical Act, 1898, shall, on appearing in person before the registrar of the council and paying a fee to the registrar of one hundred dollars, be entitled to be registered on producing to such registrar a certificate duly authenticated under the hand and seal of the Registrar of Medical Practitioners in England, Ireland and Scotland, as the case may be (or other legal evidence) that such applicant is a duly registered medical practitioner, and that he was duly registered under the "Medical Act" (Imperial) on or before the 30th day of June, 1887. Such applicant will also be required to produce a certificate of good standing in the profession of medicine from the registrar or other officer of the medical body having jurisdiction where such applicant last practised his profession, and evidence by statutory declaration that he has not lost the benefit of his said registration under the "Medical Act" (Imperial), by misconduct or otherwise.

4. Sub-sec. (d), Sec. 24, provides that: Any homoeopathic physician holding a diploma of qualification from any authorized school or college requiring at least a four such registrar a certificate duly authenticated under the hand and seal of the Registrar under this act upon passing before the council or such of them as may be appointed for that purpose, a satisfactory examination in the following subjects, viz.: Anatomy, physiology, pathology, chemistry, obstetrics and surgery.

5. The examination shall be orally and in writing, upon the following subjects:

1. Anatomy.
2. Chemistry and public health.
3. Physiology and histology.
4. Materia medica and therapeutics.
5. Medical jurisprudence.
6. Theory and practice of medicine and medical pathology.
7. Theory and practice of surgery and surgical pathology.
8. Clinical medicine.
9. Clinical surgery and surgical anatomy.
10. Obstetrics and diseases of women and children.
11. Urinary analysis and clinical microscopy.

6. Before examination, the candidate shall pay to the registrar of the college the fee of one hundred dollars for the examination, fifty of which shall be returned if the candidate be rejected.

7. During the year there shall be two regular meetings, and two examinations held, beginning on the first Monday of May and the last Monday of October.

All examinations are held at the college rooms, in the New Parliament buildings, Victoria.

8. Permits are not granted by the council.

For more particular information apply to the registrar, Victoria, B. C.

## REGULATIONS REGARDING LICENSE TO PRACTICE MEDICINE IN MANITOBA.

The College of Physicians and Surgeons is the sole licensing body in medicine in the province, and the University of Manitoba is the sole examining body.

## EXAMINATION.

If the applicant for license be a graduate in medicine of any Canadian university, he should send to the registrar of the College of Physicians and Surgeons, prior to the 1st of March, his medical degree (as a credential), and, upon this being found satisfactory, he shall be reported to the university as eligible to write at the examination, which begins at 9 a. m. on the third Monday in April, at the University building.

In the case of a graduate from any university in the United States or other foreign country, he shall be required, in addition to sending his degree (or diploma), to furnish complete detailed and authoritative information as follows:

First. As to his matriculation; giving the name and address of the institution in which he was examined, the subjects, and the extent of each required.

Second. As to medical course; the number and length of sessions, subjects taught, number of courses in each, and number of lectures in each course, amount of clinical instruction in the different courses, etc., etc.

On receipt of this information the university will decide as to the eligibility or otherwise of the applicant to write for license.

Each applicant, at the same time that he sends his credentials to the registrar of the C. P. S., should send \$15 examination fee in a separate communication addressed to Dr. G. J. Laird, registrar of the university, which will be returned to him in case he is not permitted to write.

A candidate failing in three or more subjects must write on the whole examination again, and can only do so at a subsequent regular spring examination. If he fail in two subjects, or less, he will be required to write on these only, and may do so at the time of the supplemental examinations in September, or at the next spring examination.

The subjects of examination for license are: Written—Medicine, surgery, obstetrics and diseases of children, gynaecology, materia medica and therapeutics. Oral—Clinical medicine, clinical surgery, clinical ophthalmology and otology. Fifty per cent required in each to pass.

The fee for license, \$75, is payable immediately after the receipt by the registrar of the C. P. S. of the report of the university examinations.

An annual fee of \$2.00 is payable by each member of the C. P. S.

The license is not issued until the examination has been completed.

No interim permit to practice is granted.

Any licentiate in Great Britain may register in Manitoba by paying the fee (\$75.00) on presenting certificate of registration in Great Britain and proving identity, without further examination.

For information regarding license in the N. W. Territories, write to Dr. J. D. Lafferty, Registrar, Calgary.

For information regarding Manitoba Medical College, write to Dr. E. S. Popham, Registrar of M. M. C., Winnipeg.

### MEDICAL LAWS OF NEW BRUNSWICK.

#### MATRICULATION EXAMINATION.

9. Hereinafter no person shall begin to enter upon the study of physic, surgery, or midwifery, for the purpose of qualifying himself to practice the same in this province, unless he shall have obtained from the Council of Physicians and Surgeons a certificate that he has satisfactorily passed a matriculation or preliminary examination in the subjects specified in Schedule B to this act, or unless he has passed a matriculation examination for an undergraduate course in arts and science at some college in Great Britain, Ireland, Canada, the United States of America, or the continent of Europe. Provided, that the council shall have the power to make such alterations in the said Schedule B as may from time to time be deemed requisite.

10. No candidate shall be admitted to such matriculation or preliminary examination unless he shall have, at least fourteen days previous to such examination, given notice to the registrar of the council of his intention to present himself for such examination, and transmitted to the registrar a certificate showing that he has completed his sixteenth year, and shall before the examination have paid a fee of \$5.00 to the registrar.

#### PROFESSIONAL COURSE.

Four years of study are required, including a graded collegiate course of four sessions of not less than six months each, at some recognized college or university, as per Sec. 2, amendment to the Medical Act, passed March 5, 1895.

2. No person shall be entitled to have his name entered on the register of the council, or to receive a license to practice from such council, unless he shall satisfy the council that he has passed the matriculation or preliminary examination; that, after passing such examination, he has followed his studies during a period of not less than four years; that during such four years he has attended at some university, college or incorporated school of medicine in good standing, a graded collegiate course of four sessions of not less than six months each; such course to include satisfactory and sufficient lectures and instruction in anatomy, practical anatomy, chemistry, practical chemistry, physiology, histology, materia medica, pharmacy, therapeutics, surgery, medicine, obstetrics, diseases of women and children, medical jurisprudence, hygiene and pathology, including bacteriology, together with evidence of attendance for a period of not less than twelve months upon the general practice of a hospital containing not less than fifty beds, under the charge of not less than two physicians or surgeons; that previous to graduation or obtaining a diploma he has passed satisfactory examinations in the subjects of the above curriculum, and that the examinations have been conducted, and the diploma granted, by a medical school, college, university or licensing body, which itself requires a four years' graded course as above appointed; or for want of such degree or diploma, that he has satisfactorily passed an examination in the various branches hereinbefore specified before examiners to be appointed by the council; and in case he has such degree or diploma that he has passed such examination as to his knowledge and skill for the efficient practice of his profession as may be prescribed by the council; that he is not less than twenty-one years of age; that he has paid to the registrar of the council a fee of ten dollars: Provided, that the council shall have power, subject to the approval of the governor in council, to make such alterations in the foregoing curriculum and requirement for registration as may from time to time be deemed requisite; and provided, also, that in the event of any person applying for registration as a practitioner of any system of medicine, the registered practitioners of the system shall have the right to appoint an examiner or examiners on the subjects peculiar to that system, namely: Materia medica, pharmacy and therapeutics, and if they should neglect so to do, the council shall have the power to appoint such examiner or examiners.

At the regular meeting of the council, held July 20, 1897, it was resolved: "That in future all candidates for registration in the Province of New Brunswick be subjected to a professional examination irrespective of any diploma which they may possess."

The attention of physicians and students is particularly called to the fact that a year of study, with a legally qualified practitioner, which has been allowed to count

as one of the four years required, is now eliminated from the course, and four sessions at college must be taken in every instance.

PROFESSIONAL EXAMINATIONS.

The professional examinations will be held in St. Johns once each year, commencing on the fourth Wednesday in June.

### REGULATIONS TO BE OBSERVED BY MEDICAL STUDENTS AND CANDIDATES FOR THE LICENSE OF THE PROVINCIAL MEDICAL BOARD OF NOVA SCOTIA.

#### THE PRELIMINARY EXAMINATION.

1. No person shall begin or enter upon the study of medicine, for the purpose of  
qualifying himself to practice the same in the Province of Nova Scotia, unless he first  
produces to the registrar a certificate from the examiners appointed by the Provincial  
Medical Board to show that he has passed the preliminary examination in the subjects  
prescribed by the rules and regulations of the board, or evidence of having passed  
such equivalent examination as is accepted by the board, and unless he causes his  
name to be forthwith entered in the Medical Students' Register as hereinafter speci-  
fied. (Sec. 15.)

2. No candidate shall be admitted to the preliminary examination unless at least  
fourteen days previous to such examination he has given notice to the registrar of the  
board of his intention to present himself for such examination, and unless he has  
produced to the registrar satisfactory evidence that he has completed his sixteenth  
year, and has paid a fee of ten dollars (\$10.00) to the registrar.

3. The preliminary examination will embrace the following subjects, viz.:
  - (1) English. (a) Language: Grammar, analysis, parsing.  
(b) Rhetoric and Composition, including an essay on one of several set subjects from prescribed authors.  
(c) Literature: History of English literature; critical study of prescribed authors.
  - (2) Arithmetic. Complete.
  - (3) Algebra. Simple rules; rules for the treatment of indices; surds; extraction of square and cube roots; equations of the first degree; quadratic equations.
  - (4) Geometry. Euclid, Books I, II, III, with easy deductions.
  - (5) History and Geography. British and Canadian history with questions in general geography.
  - (6) Latin. (a) Translation from prescribed books, with questions arising out of those books, and translation of easy passages not taken from those books.  
(b) Grammar, including accidence and elementary syntax.  
(c) Composition in translation of easy sentences from English into Latin.
  - (7) One of the following:
    - Greek. (a) Translation from prescribed books, with questions arising out of those books, and translation of easy passages, not taken from those books.  
(b) Grammar, including accidence and elementary syntax.  
(c) Composition in translation of easy sentences from English into Greek.
    - French. Translation from prescribed books, with grammar questions limited to the accidence and easy rules of syntax, and based upon the passages prescribed for translation.
    - German. Translation, grammar, etc., as under French.
4. Examinations take place twice a year, beginning on the first Thursday in May and the last Thursday in August.  
On the same dates local examinations will be held, on application at Sydney, at Pictou, and at Yarmouth. Candidates taking local examinations are required to pay an additional fee of \$2.00.
5. Unless otherwise specified, the books prescribed by the Council of Public Instruction for the course leading to the Grade B, or High School Junior, leaving examinations are recommended.
6. In order to pass, a candidate must make fifty per cent of marks in each subject.
7. If fifty per cent be made in all subjects but one, and if in that subject the candidate shall have made at least 25 per cent, he may begin study, and attend for one medical year at any medical college recognized by the board, and thereafter present himself for examination in that subject alone, on payment of a fee of \$2.00. Candidates taking local examinations will be required to pay the usual additional \$2.00 fee for such examination.
8. A candidate failing in more than one subject, or failing to make 25 per cent in any subject, may not begin professional study, but will be required to appear again for examination in all subjects. The fee for examination in such cases will be \$5.00 (or \$7.00 if a local examination be taken).
9. Certificates will be issued to successful candidates, showing the subjects in which they have passed, and the extent to which their knowledge of these subjects was tested.
10. Candidates who have passed the above examination will be admitted without further preliminary examination at all Canadian and American colleges.
11. This examination also satisfies the requirements of the General Medical Council of Great Britain as to the preliminary examination which must be passed by persons wishing to register as medical students, provided the candidate shall have passed in all subjects at one examination.

## EXEMPTIONS.

12. Graduates in arts or science of any recognized college or university are not required to submit to this examination, provided the candidate shows that he has passed a satisfactory examination in Latin; and in Greek, or French, or German.
13. The medical board will also recognize pro tanto the following examinations:
  - (1) The matriculation or the sessional examinations of any chartered university or college approved by the board.
  - (2) The entrance examination of the Nova Scotia Barristers' Society.
  - (3) The examinations for teachers' licenses, Grade A or B, of Nova Scotia.
  - (4) The examinations for junior or senior high school leaving certificates of Nova Scotia.
  - (5) The examinations for honour, first or second class ordinary diplomas, as issued by the Prince of Wales College, P. E. I.
  - (6) The examinations for first or second class teachers' licenses of Prince Edward Island.
  - (7) The examinations for first class or for grammar school license of New Brunswick.
  - (8) The examination for corresponding licenses or leaving examination certificates issued by the education department of the other provinces of Canada.
  - (9) The matriculation or preliminary examinations of any medical licensing board or council authorized by law in his majesty's dominions with 50 per cent in each subject.

[Note.—In accepting certificates under the above sub-sections, 3-8 (inclusive), 50 per cent will be required in all subjects of examination for Grade "A," C. P. I., N. S., and in all other certificates of the same standing issued by the education department

of any of the other provinces of Canada. In all other certificates, coming under these same sub-sections, 60 per cent will be demanded in each subject.]

14. After passing his preliminary examination, the medical student may then enter upon his professional course at any university, medical school or college approved by the board.

## REGISTRATION OF STUDENTS.

15. Immediately after entering upon his course every medical student in Nova Scotia, and every person otherwise engaged in the study of medicine for the purpose of qualifying himself to practice in this province, shall forthwith cause to be entered in the register of the board kept by the registrar, and called the Medical Students' Register, his name, age, place of residence, date and particulars of his preliminary examination, and place and date of his commencement of the study of medicine, and shall receive from the registrar a certificate of such registration.

16. The fee for such registration is ten dollars (\$10.00), except that candidates who already have paid \$10.00 for the matriculation examination are not required to pay any additional fee. Students registered in other provinces will also be registered in Nova Scotia without additional fee, provided they have satisfied the preliminary examination requirements of this board.

## THE MEDICAL CURRICULUM.

1. Every student must spend a period of at least four Academic years in actual professional study subsequent to his having passed the preliminary or matriculation examination and being registered as a medical student; and the prescribed period of study shall include four collegiate sessions of at least eight months' duration, or an equivalent, each year.

2. Every student must attend the courses of lectures and instruction, prescribed in section 19 of the act in a university, college or school of medicine approved by this board, "such course to include satisfactory and sufficient lectures and instruction in anatomy, practical anatomy, physics, chemistry, practical chemistry, physiology, histology, materia medica, pharmacy, therapeutics, surgery, clinical surgery, medicine, clinical medicine, obstetrics, practical obstetrics, diseases of women and children, medical jurisprudence, hygiene, pathology (including bacteriology, and post mortem examinations)," together with attendance "for a period of not less than eighteen months upon the general practice of a hospital containing not less than one hundred beds under the charge of not less than four recognized medical practitioners, of whom one at least must be a surgeon; or for not less than twelve months on such hospital practice and attendance for six months additional on the practice of a recognized dispensary, or of the outpatient department of a general hospital."

## PROFESSIONAL EXAMINATIONS.

1. Candidates for the license of this board will be required subsequent to their registration as medical students, to pass three examinations, to be known as the first, second, and third professional examinations.

2. These examinations will be held twice during the year. The third or final professional will begin on the second Wednesday in April, and on the first Wednesday in September, respectively. The dates for the first and second professional examinations will be according to special arrangements made at the time.

3. Candidates qualified by having attended the necessary courses of study may enter for two or more examinations to be passed successively at the same period, the conditions being that failure to pass any of the subjects of the prior examination precludes the candidate from admission to the succeeding examination. The necessary schedule and certificates must be lodged, and the fees for these respective examinations paid, at the period of entering for the earliest of them. In the event of failure, the fee paid for any subsequent examination, from which the candidate has been precluded, will be returned to the candidate.

4. At all examinations the pass mark shall be 50 per cent in each subject, except under the conditions specified in Sec. 20.

5. No candidate shall be admissible to examination who has been rejected in the subjects of the examination by any other licensing board within the three preceding months.

6. Applicants for admission to any of the examinations are required on entering to lodge with the registrar a schedule (forms of which will be supplied), showing the courses they have attended qualifying for admission.

7. No candidate can be held to be entered for any examination till he has sent in the proper schedule, proved his course of study, and paid his proper fee.

8. (1) A candidate may be exempted from examination in any subject of the first or second professional examinations on the production of a certificate proving that he has passed an equivalent examination before any of the other provincial licensing boards, specified in the Medical Act, Sec. 21, (2), such certificate specifying the subjects of examination.

(2) Until further notice, any candidate who produces to the registrar satisfactory certificates of having passed in the subjects of the first and second professional examinations at any medical college or university recognized by the board, will be exempt from further examination in such subjects.

(3) Any person who produces to the registrar satisfactory evidence to show that, as a student in arts or science connected with any recognized university or college he has attended a satisfactory course in physics, chemistry, or practical chemistry previous to his registration as a medical student, will be exempted from further attendance in such subject, or subjects, and a certificate of having, as such arts or science student, previous to his registration, or as a regular medical student subsequent to such registration, passed an examination in either or all of those subjects

equivalent to that required by the board, will be accepted as exempting from further examination in any or all of said subjects.

9. (1) A candidate admitted to any examination on the footing of having passed in all the subjects of the preceding examination or examinations at another board shall pay the fees exigible for such preceding examination or examinations in addition to the fee of the examination for which he enters.

(2) The fee for persons admitted to the third professional examination under Sec. 8, (2), will be fifty dollars (\$50.00) which will entitle the successful candidate to the benefits of Chap. III, Sec. 23, equally and to the same extent as is provided in

said section for candidates who have taken all examinations and paid the usual fees.  
**FIRST PROFESSIONAL EXAMINATION.**

10. This examination may be taken at any period after the end of the second year of study, and will embrace the following subjects to the extent indicated hereafter, viz.: Physics, chemistry, anatomy, physiology including histology.

11. Applications for examinations with evidence of attendance in each of the subjects, etc. (according to furnished schedule), must be deposited with the registrar fourteen days before the date of the examination, along with the examination fee.

12. The fee payable for admission to this examination shall be \$20.00; for re-entry in all subjects after rejection, \$15.00; for re-entry in one or more subjects after obtaining a pass in the others in virtue of Sec. 20, \$5.00 for each subject.

#### **SECOND PROFESSIONAL EXAMINATION.**

13. This examination may be taken at any period after the end of the third year of study, and will include pathology and bacteriology, materia medica and pharmacy, to the extent indicated hereafter.

14. Applications for examination, with evidence of attendance on the required courses, etc. (according to schedule furnished), must be deposited with the registrar fourteen days before the date of the examination, along with the examination fee.

15. The fee payable for admission to this examination shall be \$15.00; for re-entry in both subjects after rejection, \$10.00; for re-entry in one subject after pass in the other, in virtue of Sec. 20, \$5.00.

#### **THIRD PROFESSIONAL EXAMINATION.**

16. This examination shall not be passed earlier than the end of the fourth year of study, and shall embrace the following subjects:

(1) Medicine, including therapeutics and medical anatomy.  
(2) Clinical medicine.  
(3) Surgery, including surgical anatomy and diseases and injuries of the eye, ear and throat.

(4) Clinical surgery.  
(5) Obstetrics and diseases of women and of new-born children.  
(6) Medical jurisprudence and hygiene, to the extent indicated hereafter.

17. The schedule for the final examination shall contain a summary of the entire course of study. It shall be accompanied by certificates to cover all requirements of the course prescribed under the medical act in the board's regulations, and, together with the fee, must be deposited with the registrar not later than fourteen days before the date of the examination. At the same time, certificates must be produced to show that the candidate is not less than twenty-one years of age, and is of good moral character.

18. No candidate can claim exemption from any subject of the final examination except as provided for by Sec. 20, of this chapter.

19. All candidates will be subjected, in addition to the written and oral examinations, to practical clinical examinations in medicine and surgery, which will include the examination of patients, physical diagnosis, the use of the microscope, pathology of the urine, surgical appliances, bandages, surface markings, etc.

20. In case of failure, a candidate who obtains 60 per cent in any subject or subjects, will, on re-examination, be exempted in such subject or subjects, but will be required to obtain 60 per cent in each of the remaining subjects.

21. For candidates who have paid for the first and second professional examinations, the fee payable for admission to the final examination shall be \$35.00; for re-entry in all subjects after rejection, \$25.00; for re-entry in all subjects after passing in the others, in virtue of Sec. 20, \$5.00 for each subject.

#### **THE LICENSE AND MEDICAL REGISTRATION.**

22. Before being admitted as a licentiate of the board, each candidate for the license, after passing the final examination, will be required to subscribe to a declaration binding and obliging himself to conform to its requirements and to the regulations of the board under pain of forfeiture of his license.

23. A candidate having passed all examinations and signed the prescribed declaration, will be entitled without further fee to receive a diploma or certificate of qualification, certifying his admission as a licentiate of the Provincial Medical Board of Nova Scotia, and will be further entitled without additional fee to have his name and qualifications entered in the medical register.

[Note.—While the third professional is the only examination required of persons who, having satisfied the requirements of Chap. III., Sec. 8, are desirous of securing the license of the Provincial Medical Board with right of registration for the practice of medicine in Nova Scotia, candidates who wish to secure a certificate which will be accepted and entitle them to registration without further examination in another province, may do so by producing evidence in the first place of having satisfied in other respects the requirements of the council of such province, and by passing an additional

24. (1) The board will admit to registration any person desirous of practicing in Nova Scotia who is duly registered by the General Medical Council of Great Britain, upon his submitting his qualifications, together with satisfactory evidence of such registration and proof of identity and upon payment of the registration fee.

(2) When and as soon as it appears that there has been established in any other province of Canada, or in the Northwest Territories of Canada, an examining board similar to that constituted by the medical act of Nova Scotia, or an institution duly recognized by the legislature of any such province or of the said Northwest Territories, as the sole examining body therein for the purpose of granting certificates of qualification for the practice of medicine, and whereof the curriculum is equivalent to that established by the Act, the holder of a certificate of qualification from any such examining body or institution, shall upon due proof and upon payment of the registration fee, be entitled to registration by the board, if the same privilege is accorded by such examining board or institution to those holding certificates of qualification from this board.

(3) The registration fee in all cases, where no examination is required by the board, will be thirty dollars (\$30.00).

## MEDICAL LAW OF ONTARIO.

"The College of Physicians and Surgeons of Ontario" is the name adopted by the medical profession of the Province of Ontario in its corporate capacity. As every legally qualified medical practitioner in the province is a member of this college, it is not an institution for the teaching of medicine.

The medical profession of Ontario was first incorporated under this name by an act of Parliament of Canada, passed in 1866. This act was subsequently repealed by the Legislature of Ontario in 1869, and now the affairs of the profession in this province are regulated by an act passed in 1874 (37 Vic., Cap. 30), commonly known as the "Ontario Medical Act," and further amended in 1887, 1891, 1893, 1895, 1902 and 1905.

By this act the "Council of the College of Physicians and Surgeons of Ontario" is empowered and directed to enact by-laws for the regulation of all matters connected with medical education; for the admission and enrollment of students of medicine; for determining from time to time the curriculum of the studies to be pursued by them, and to appoint a board of examiners, before whom all must pass a satisfactory examination before they can be enrolled as members of the college, and thus be legally qualified to practice their profession in the Province of Ontario.

The council, moreover, has power and authority conferred upon it by this act to fix the terms upon which practitioners of medicine, duly qualified in other countries, may be admitted as members of the College of Physicians and Surgeons of Ontario, this being the only mode in which they can become legally entitled to practice their profession in this province.

For the information and guidance of students of medicine, the profession, and the public generally, the council, in conformity with the Ontario medical act, hereby promulgates for the year 1907-1908 the regulations which herein follow, repealing all others heretofore in force.

### SEC. 1.—MATRICULATION.

Every one desirous of being registered as a matriculated student in the register of this college, except as hereinafter provided, shall be required to pay a fee of twenty dollars and to conform to the following regulations:

Any one of the following credentials will be accepted:

1. A certificate of having graduated in arts or science in any university in His Majesty's dominions, or any other university approved of by this council.
2. A certificate from the registrar of any chartered university conducting a full arts course in Canada, that the holder thereof has passed the examination conducted at the end of the first year in arts by such university.
3. A certificate of having passed the joint university senior matriculation examination in arts as conducted by the Education Department of Ontario.
4. A certificate of having passed the senior arts matriculation conducted by any chartered university of Canada.
5. A certificate of having passed the joint university examination for junior matriculation in arts, as conducted by the Education Department of Ontario, with an advanced percentage as follows: 40 per cent minimum on each subject, and 50 per cent on the aggregate.
6. A certificate of having passed the joint university examination for junior matriculation in arts, as conducted by the Education Department of Ontario, with honors in any two departments.

Inasmuch as we believe the above standard to be superior in character we recommend that the distinguishing term, "Ontario medical matriculation," shall appear prominently on every certificate.

The fee for matriculation shall be twenty dollars and every medical student after matriculation shall be registered in the manner prescribed by the council, and this shall be held to be preliminary to his medical studies, which will not be considered to begin until after the date of such registration.

### SEC. II.—MEDICAL CURRICULUM.

1. Every student must spend a period of five years in actual professional studies, except as hereinafter provided; and the prescribed period of studies shall include four winter sessions of eight months each. The fifth, or final year, to be devoted to clinical work.

2. Also, if a fifth year student evades the law by practicing medicine on his own account, he shall not be entitled to examination at the end of his fifth year.

N. B.—That the provisions of this section shall be strictly enforced, and that the registrar shall be instructed to notify every student commencing his fifth year, that he will not be allowed to present himself for examination for the license of the College of Physicians and Surgeons of Ontario, until he shall have carried out the provisions of the council as above.

3. Graduates in arts or science of any college or university recognized by the council who shall have spent two years in the courses of physics, chemistry, biology and physiology, who have graduated in arts as above specified prior to beginning their medical course and shall have passed examinations in their university course in the said subjects while taking their degrees, will be required to spend four years in the study of medicine, and on condition that prior to the third year they shall have passed the primary examination, they shall be permitted to take both the intermediate and final examinations on completion of the fourth year, but shall have no remission in the number of clinical lectures.

Homeopathic students who attend four sessions in a college approved of by the homeopathic representatives in the council where the sessions are not less than eight months, shall be held to have fulfilled the requirements of this college in that regard.

Course prescribed for the first four years:

5. The fifth or final year shall be devoted to clinical and practical work.

Six months of which the student may spend with a registered practitioner in Ontario, from whom he must present to the registrar a proper certificate, and six months he must spend at one or more public hospitals, dispensaries or laboratories devoted to physiological or pathological research, Canadian, British or foreign, approved by the council, and during this term of hospital attendance he must take the following lectures or demonstrations conducted by an approved teaching faculty, viz.:

Twenty-five lectures or demonstrations in surgery.

Twenty-five lectures or demonstrations in medicine.

Twenty-five lectures or demonstrations in obstetrics and gynecology.

Twenty-five lectures or demonstrations in pathology (gross and microscopical).

Twenty-five lectures or demonstrations in ophthalmology, otology and rhinology.

Twenty-five lectures or demonstrations in topographical anatomy.

Twenty-five lectures or demonstrations in applied therapeutics.

Ten lectures or demonstrations on the use of anesthetics.

Five lectures or demonstrations on the use of practical vaccination.

Five lectures or demonstrations on the use of life assurance.

Certificates of the above lectures must be presented to the registrar of the council, signed by teachers of schools or colleges recognized by the council, together with a certificate of six months hospital attendance at a recognized hospital, during the fifth year.

A certificate of having been house surgeon or physician in a recognized hospital for one year or of having spent six months as an assistant to a qualified medical practitioner, and of having regularly attended for six months the wards of a recognized hospital, in which clinical lectures or demonstrations are given by the staff will be accepted in lieu of the above specific clinical lectures. A recognized hospital for the purpose of this regulation shall be construed to mean a hospital having not less than fifty beds, and satisfactory to this council.

When the terms lectures or demonstrations are used, they shall be deemed hours of instruction.

No tickets for lectures will henceforward be accepted by the council unless it is endorsed thereon as shown by teachers' roll, that the pupil has at least attended 75 per cent of the set number of lectures of each course.

Application for every professional examination must be made to the registrar of the College of Physicians and Surgeons of Ontario at least two weeks prior to the examinations. No application will be received unless it is accompanied by the necessary tickets and certificates, and by the treasurer's receipt showing that the fees have been paid.

6. Every candidate will be required to prove that he has carefully dissected the entire adult human body.

7. Also must have attended the practice of a general hospital for twenty-four months during the first four years of study.

8. Also must have attended six cases of midwifery.

9. Also must, before being registered as a member of the College of Physicians and Surgeons of Ontario, have passed all the examinations herein prescribed, and attained the full age of twenty-one years.

10. Graduates in medicine from recognized colleges outside the Dominion of Canada, who desire to qualify themselves for registration, must pass the matriculation required by the council; and must attend one or more full winter course of lectures in one of the Ontario medical schools (a) and must complete fully the practical and clinical curriculum required by the council after the fourth year, and shall pass before the examiners appointed by the council all the examinations hereinafter prescribed, so as to complete fully the curriculum.

Note (a).—This clause does not apply to homeopathic students, requirements for whom are fully set forth in Sec. 8, sub-Secs. 10 and 11.

### SECTION III.—EXAMINATIONS.

1. The professional examinations are divided into three parts: "Primary," "Intermediate" and "Final."
2. The primary examinations shall be undergone after the second winter session, and the intermediate after the fourth winter session, the final after the fifth year.
3. The following branches shall be embraced in the primary examinations:
  - (a) Anatomy.
  - (b) Physiology and histology.
  - (c) Chemistry (theoretical and practical).
  - (d) Materia medica and pharmacy.
4. Every candidate for the primary examination will be required to present, with his lecture tickets, a certificate of having undergone and passed an examination at the school he has attended at the close of his first winter session on primary branches. Also a certificate of ability to make and mount microscopic specimens.
5. Each candidate for final examination must present a certificate of attendance at six post-mortem examinations; a certificate of ability to draw up a report of post-mortem examinations; a certificate of having reported satisfactorily in six cases of clinical medicine and six cases of clinical surgery, and a certificate of having passed his intermediate examination, the certificates to be signed by the teachers referred to upon these subjects, or the practitioner holding post-mortem.
6. All candidates shall (excepting art graduates) present a certificate of having passed at the close of their third session in the college or school they may have attend-

ed, an examination in such parts of medicine, surgery and midwifery as may be thought advisable by the faculties of the respective colleges or schools. This examination is not in any way to interfere with any of the examinations of the council.

The following branches shall be embraced in the intermediate examination:

- (a) Medical, surgical and topographical anatomy.
- (b) Principles and Practice of Medicine.
- (c) General pathology and bacteriology.
- (d) Surgery, other than operative.
- (e) Surgery, operative.
- (f) Midwifery, other than operative.
- (g) Midwifery, operative.
- (h) Medical jurisprudence, including toxicology and mental diseases.
- (i) Sanitary science.
- (j) Diseases of children.
- (k) Diseases of women.
- (l) Therapeutics.

7. The primary and intermediate examinations shall be "written" or "oral." The final "oral" and "clinical."

8. The following branches are embraced in the final examinations:

- (a) Clinical medicine.
- (b) Clinical surgery.
- (c) Diseases of women.
- (d) Diseases of children, medical and surgical.

9. Candidates for the primary who fail in all subjects but two must make 60 per cent in each of these subjects, or get no credit for any. Candidates for intermediate who fail in all subjects save three, will be allowed those three if they pass 60 per cent in each.

10. Candidates who intend to be examined by the homeopathic examiner in special subjects shall signify their intention to the registrar at least two weeks previous to the commencement of the examinations, so that the examinations may be conducted by the parties appointed for that purpose. Prior to the acceptance of such notice from the candidate the usual fees must be paid.

In the event of any candidate presenting himself for such examination, due notice must be given by the registrar to the special examiner.

11. Until a homeopathic medical college for teaching purposes is established in Ontario, candidates wishing to be registered as homeopaths shall pass the matriculation examination established by this act as the preliminary examination for all students in medicine, and shall present evidence of having spent the full period of study required by the curriculum of the council under the supervision of a duly registered homeopathic practitioner.

Such candidates must also have complied with the full curriculum of studies prescribed from time to time by the council for all medical students, but the full time of attendance upon lectures and hospitals required by the curriculum of the council may be spent in such homeopathic medical colleges in the United States or Europe as may be recognized by a majority of the homeopathic members of the council; but in all the homeopathic colleges where the winter course of lectures is only of four months' duration, certified tickets of attendance on one such course shall be held to be equivalent to two-thirds of one six months' course, as required by the council; and when such teaching body has been established in Ontario, it shall be optional for such candidates to pursue in part or in full the required curriculum in Ontario.

12. A professional examination will be held in Toronto on the third Tuesday in November, 1907. All candidates who have failed in a former examination will be required to pay a fee of twenty dollars for this examination. The next professional examination thereafter will be held at Toronto, Kingston and London, on the third Tuesday in May, 1908.

#### SECTION IV.—FEES.

1. The following scale of fees has been established by the Council of the College of Physicians and Surgeons of Ontario:

- (a) Registration of matriculation, \$20.00.
- (b) Primary examination, \$30.00.
- (c) Intermediate and final examination, including registration, \$50.00. This is not to affect any student who is registered as a matriculate prior to July 1st, 1889. These fees are to be paid to the treasurer of the college before each examination.
- (d) Registration of persons duly qualified before 23rd day of July, 1870, \$10.00.
- (e) Registration of persons duly qualified after 23rd of July, 1870, \$25.00.
- (f) Registration of additional degrees or titles, \$2.00. This fee is only payable when the additional titles are registered at different times, but any number of such titles as are allowed to be registered may be put on record at the first registration fee.
- (g) Diploma of membership of the college, \$5.00. This diploma is granted free of charge to all those members of the college who attain their membership by passing the examinations of the college. All other members may obtain it on application to the registrar, and paying the above named fee.
- (h) Annual assessment due by members of the college for each year, payable to the registrar, \$2.00. This fee is payable by every member of the college.

2. All fees must be paid in lawful money of Canada to the treasurer of the college.

No candidate will be admitted to an examination until the fee for such examination is paid in full.

4. Candidates who have failed in any professional examination in more than one subject shall pay a fee of twenty dollars for each subsequent examination; if only one subject, ten dollars.

# SECTION V.—EXAMINATIONS.

Rules for the Guidance of the Board of Examiners:

1. No teacher shall be eligible for appointment as examiner in the subject which he teaches, but this restriction shall not apply to teachers of anatomy, physiology and chemistry.
2. The registrar or deputy registrar must be present at every examination, and each student must produce evidence satisfactory to the registrar or deputy registrar of his identification.
3. At the end of each written examination upon any subject, the answers to the questions are to be handed to the registrar, who will open the envelopes, in which they are hereinafter directed to be enclosed, and to each set of papers affix a number by which the author will be known to the examiners during the examination. The registrar will then deliver the papers to the members of the board of examiners appointed by the council to examine upon the subject.
4. The papers, when delivered to the member of the board of examiners appointed by the council to examine the subject, are to be by him examined, and the relative value of answers marked by means of numbers in a schedule which will be furnished to him by the registrar, ranging for the primary subjects as follows:
5. That the percentages in the primary branches be as follows, ranging from 0 to 100 on all subjects:

That the percentage in the final branches be as follows: 0 to 100 on all subjects. Honors, 75; pass, 50.

6. The value awarded by the individual examiner to the answers of candidates is not to be subject to revision, except by the council, who may have the papers re-read and a revision when special cases of hardship may seem to have occurred.

7. The examiner shall return the schedule to the registrar, with values inserted, within fifteen days of the close of examinations on his subject. From these values a general schedule is to be prepared by the registrar, and inspected as to correctness by the president; but such schedule shall in no case be disclosed until it has received its final revision at the ensuing meeting of the council, which schedule shall be final.

8. Papers on the homeopathic subjects are to be finally submitted to the examiner approved of for that purpose by the representatives of that system in the council.

9. All oral examinations are henceforth to be as clinical, demonstrative and practical as possible, and the candidates shall be known to the examiners by numbers only. It is recommended that the attention of the examiners be specially directed to clause 9 for the guidance of examiners.

10. That it be an instruction to the examiners, in the questions in their respective subjects, to confine themselves to the text-book in ordinary use (see page 10 of this announcement), also that in referring to diseases or operations of any kind, the name of such diseases or operations most commonly in use should be employed.

The examiners are instructed to attach to each question a printed number as the value of a full and correct answer thereof—the whole of such numbers to amount to 100—also that in reading the paper they mark in colored chalk what they regard as the numerical value of the answer given.

That it be an instruction to the final oral clinical examiners, that each candidate at the final examination shall be examined by two examiners conjointly.

11. That it be an instruction to the president that he shall in no case report a candidate to the council as having passed an examination when on any subject he makes less than the minimum of marks set by the council for a pass on that subject.

But in any case where he thinks there are special reasons for granting a license to such candidate he shall report the same to the council for its action.

12. Candidates for oral examinations will be divided into classes by the initial letter of their names, and notified of the time at which they present themselves for examination. Such students to be enclosed in an adjoining room, and sent to examiners as otherwise provided. The regulations will be rigidly enforced which forbids communications with those awaiting examination.

## SECTION VI—RULES FOR CANDIDATES WHEN IN THE EXAMINATION HALL.

1. Each candidate shall receive from the registrar a programme containing a list of subjects upon which the candidate is to be examined, and it will admit him to the examination hall during the progress of the examinations upon such subjects, but at no other time.

2. Candidates must write the answers to the questions given by the examiners legibly and neatly upon one side of each page of a book, which will be furnished to each candidate, and the number given with each question is to be put at the head of the answer to it, in such a manner as to have the first page facing outward to the view; they are then to be folded once and enclosed in an envelope, on the outside of which each candidate is to write his name. The packet is then to be handed to the registrar, or some one deputed by him. Neither signature, number or sign, by which the writer could be recognized by the examiner, is to be written or marked upon any portion of the book to be enclosed in the envelope.

3. The questions of the examiners in the homeopathic subjects will be handed in writing, at the beginning of the general examination on the same subject, by the registrar, to such candidates as have given him notice in accordance with Sec. III, Sub-Secs. 10, 11. They shall write the answers to these questions in the same hall with the other candidates, and hand their paper, when finished, to the registrar in the same manner as provided for other candidates, to be by him given for examination to the homeopathic member of the board of examiners appointed to examine on that subject.

4. If any abbreviations are used in answering the questions, candidates must be careful that they are such as are generally understood, or which cannot be mistaken.

5. No candidate will be allowed to leave the hall after the questions are given out, until his answers have been handed in.

6. No candidate will be allowed in the hall during the hours of examination, except those who are actually undergoing examination.

7. Any candidate who may have brought any book or reference paper in the hall, must deposit it with the registrar before the examination begins.

8. Candidates must not communicate with each other while examinations are going on, either by writing, signs, words, or in any manner whatever.

9. Candidates must at all times bear themselves toward the registrar and examiners with the utmost deference and respect; and they will not be permitted in any manner to manifest approbation or disapprobation of any member of the board of examiners during the progress of the examination.

10. Candidates must not only conduct themselves with decorum while any examination is going on, but they will be held strictly responsible for any impropriety of conduct during the whole progress both of the written and the oral examinations.

11. Any infraction of the above rules will lead to the exclusion of the candidate who is guilty of it from the remainder of the examination; and he will not receive credit for any examination papers which he may have handed to the registrar previous to his being detected in such misconduct.

12. And shall be debarred from further privileges at the discretion of the council.

The postoffice address is shown in **DISPLAY TYPE**, the name of the county in which it is located immediately follows and then the population of the place. The names of physicians appear under the postoffice name, the first number (the key to which will be found on pages 115-189) indicates the college of graduation, and the last number the year in which diploma was granted.

Algebra—To the end of quadratic equations.

Geometry—First three books of Euclid.

Latin—First two books of Virgil's *Æneid*, or three books of Cæsar's *Commentaries*, translation and grammar.

Elementary mechanics of solids and fluids, comprising the elements of statics, dynamics and hydrostatics. Elementary chemistry.

Canadian and British history; with questions in modern geography.

Translation and grammar in any two of the following subjects: Greek, French, German.

Fifty per cent of the marks in each subject shall be required for a pass, and 75 per cent in all subjects for honors.

If 50 per cent be made in all the subjects but one, the candidate may begin his professional studies, and present himself in that subject alone at the next examination without additional fee.

Candidates failing in more than one subject will be allowed those subjects in which they have passed, but will be required to pay an additional fee of \$5.00, on presenting themselves for examination in the remaining subjects, and in the meantime may not begin their professional studies.

No candidate shall be admitted to such matriculation examination, unless he shall have given notice to the registrar at least fourteen days previous to such examination of his intention to present himself, and shall before the examination have paid to the registrar a fee of ten dollars.

The council will accept fully, or recognize pro tanto, the examinations required by the medical councils or boards of New Brunswick or Nova Scotia, also of any other province or territory in Canada which may hereafter reciprocate with this council in this respect.

Except where otherwise specified, the council recommends as text books the books prescribed by the board of education of this province, for students preparing for an academic teacher's license.

The matriculation examinations shall take place beginning on the first Thursday in May and September in each year.

The examiners shall be the chief superintendent of education and the secretary of the school board of the City of Charlottetown for the time being, or such other person or persons as the council may from time to time appoint.

The council shall pay to each examiner for each examination, such fees as it may from time to time decide upon.

## 2. Professional studies and examinations:

The curriculum of professional studies shall embrace the following:

Attendance during four years at university, college or incorporated school of medicine in good standing, upon a graded collegiate course of four sessions of not less than eight months each, such course to include satisfactory and sufficient lectures and instruction in anatomy, practical anatomy, chemistry, practical chemistry, physiology, histology, materia medica, pharmacy, therapeutics, surgery, clinical surgery, medicine, clinical medicine, obstetrics, diseases of women and children, Medical jurisprudence, hygiene, pathology (including bacteriology and post-mortem examinations), also attendance for a period of not less than twenty-four months upon the general practice of a hospital containing not less than one hundred beds.

No candidate shall be admitted to the professional examination unless at least fourteen days before such examination he shall have made a written application to the registrar in a form prescribed by the Council, and shall have produced before the registrar the required fee for such examination, also the fee for registration, which latter fee shall be refunded in the event of failure to pass the examination. All applications shall be submitted to the council by the registrar, and shall be subject to its approval.

The examiners shall be the members of the council, or such other persons as the council may from time to time appoint.

The examinations shall take place in the months of July and October in each year, at such time and place as the president shall appoint.

In order to pass, candidates must make 50 per cent of the marks in each subject.

If 50 per cent be made in all the subjects but one, he may present himself for examination in this subject alone, with or without additional fee, as the council shall decide.

The fee for the professional examination shall be \$15.00, which fee shall in all cases be paid into the hands of the registrar prior to the examination.

3. No name shall be placed upon the Prince Edward Island register without the order of the council.

4. If from any cause the registrar is unable to attend any meeting of the council, it shall be competent for the council to appoint a registrar pro tem., who shall have all the powers of the registrar.

5. Each member of the Medical Society shall pay to the registrar an annual fee of not more than \$5.00 (the precise fee for the year to be decided upon by resolution of the council), and which fee shall be payable on the first day of July in each year.

6. The fee for registration in the Prince Edward Island medical registrar shall be \$20.00, which fee shall in all cases be paid to the registrar before such registration is effected.

7. Any person registered in any province of Canada which reciprocates with this province, under the provisions of Sec. 12 of the Prince Edward Island Medical Act, and who wishes to reside in this province, shall be required, in order to obtain registration in this province, to bring from the registrar of the province he is leaving a certificate showing that he is at the time a legally qualified medical practitioner of such province, and that no charge of a criminal or professional nature is pending against him.

## MEDICAL LAW OF QUEBEC.

### Section 3—Admission to Practice.

3976. No person shall practice medicine, surgery or midwifery in the province, unless he has obtained a license from the Provincial Medical Board, which is hereby authorized to issue such license, unless he be registered in accordance with this section. 42-43 V., c. 37, s. 6; 45 V., c. 32, s. 3.

3977. Every person who obtains a medical degree or diploma in any university or college mentioned in Article 3972 is entitled to such license, without examination as to his medical knowledge and skill, provided that such diploma has only been given after four years of medical study from the date of admission to study, and according to the requirements of this section, and provided also that the Provincial Medical Board has power to grant the same privilege to holders of degrees or diplomas of medicine and surgery from other British, Colonial or French universities or colleges. 42-43 V., c. 37, s. 7.

3977a. The privileges above conferred upon the holders of degrees or diplomas from British colleges and universities are hereby extended to every person whose name is entered upon the medical register, under the Imperial Medical Act, 1886 (49-50 Vic-toria, Chapter 48), or of any act amending the same. (Added by 52 V., c. 39, s. 1.)

3978. No person shall be admitted as a student of medicine, surgery or midwifery, unless he has obtained a certificate of qualification from the Provincial Medical Board.

No one is entitled to the license of the college, on presentation of a diploma, unless he has been previously admitted to the study of medicine in accordanc with the provi-sions of this section, or unless he has passed an equivalent preliminary examination before a college, school or board authorized by law to require and cause such prelim-inary examinations to be passed in his Britannic Majesty's other possessions. 42-43 V., c. 37, s. 8.

3979. At a regular meeting of the board, after the expiration of the present triennial term, the Provincial Medical Board shall appoint, for three years (and simi-larly every third year), four persons actually engaged in the work of education in the Province of Quebec, to examine candidates for the study of medicine, surgery and midwifery, on the subjects of general education hereinafter mentioned, as belonging to the preliminary qualifications of medical students, viz.:

One examiner speaking the French language and one the English language, for the city of Montreal; and

One examiner speaking the French language and one the English language, for the city of Quebec.

The subjects for the prelliminary qualifications to be English and French, Latin, geography, history, arithmetic, algebra, geometry, belles-lettres and one of the follow-ing subjects: Greek, natural or moral philosophy.

The candidate must present a certificate of good moral character. 42-43 V., c. 37, s. 9.

3980. Every candidate for a license to practice medicine, surgery and midwifery in this province, desiring to be registered, and who has not obtained a degree or diploma

in medicine, surgery and midwifery from any of the institutions mentioned in Article 3972, shall, before being entitled to such license, and the registration, pass an examination before the board, as to his knowledge and skill, for the efficient practice of medicine, surgery and midwifery; and, upon passing the examination required, and proving to the satisfaction of the examiners that he has, in an institution for the teaching of medicine, in His Majesty's possessions, complied with the rules and regulations made by the Provincial Board, and on payment of such fees as the board may, by general by-law, establish, such person shall be entitled to such license. 42-43 V., c. 37, s. 10.

3981. All persons coming from any recognized college outside of His Majesty's possessions, and who are desirous of obtaining a license from the College of Physicians and Surgeons of the Province of Quebec, must previously pass the preliminary examination before the examiners appointed by the Provincial Medical Board, or establish, to the satisfaction of the board, that they have already passed an equivalent examination.

They must, moreover, follow in one of the schools of medicine in this province, a complete course (for six months) of lectures, and such other course or courses as shall be necessary to complete the curriculum required by the board; they shall also pass the professional examination before the Provincial Medical Board.

Such persons may pass their professional examination immediately after their preliminary examination. 42-43 V., c. 37, s. 11.

### MEDICAL LAW OF NEWFOUNDLAND.

Cap. IX.—An Act respecting the Newfoundland Medical Board.

Whereas an act was passed in the 56th year of the reign of her late majesty, entitled "The Newfoundland Medical Act, 1893;"

And whereas a medical board was appointed under the provisions of said act, and consisted of the following medical practitioners, viz.: Henry Shea, William M. Allan, J. S. Tait, H. Rendell, N. McKendrick, J. G. Duncan, and N. S. Fraser;

And whereas it is advisable to enlarge the powers of the said board:  
Be it therefore enacted by the Governor, Legislative Council and House of Assembly, in Legislative Session convened, as follows:

1. The following medical practitioners, namely: Henry Shea, W. M. Allan, J. S. Tait, H. Rendell, N. McKendrick, J. G. Duncan and N. S. Fraser, and their successors

under this act, shall be and are hereby constituted a board for the purposes of carrying out the provisions of this act, and shall be known as "The Newfoundland Medical Board."

2. The members of the said board shall hold office during good behavior or until voluntary resignation, subject to removal at any time by the governor in council upon the petition of five members of the said board.

3. Any vacancy in the said board shall be filled by the registered medical practitioners of New Foundland, by election in such manner and subject to such rules as may be made by the said board. All registered medical practitioners shall be entitled to vote at any such election.

4. The board shall hold an annual meeting at such time and place in Newfoundland as may be determined upon. At this meeting the board shall appoint examiners and fix the time of examinations for the ensuing year. Such other meetings as may be necessary shall be held in St. John's, and shall be called by the secretary upon giving a reasonable notice thereof to each member.

5. The board shall consist of seven members, of whom four shall be resident medical practitioners resident in St. John's. Four members shall be a quorum for all purposes.

6. The board shall elect one of their number as president and another as treasurer, and a third as secretary and registrar. The duties of the said officers and the remuneration (if any) to be paid them shall be determined by the board.

7. The board shall have power to make rules, not inconsistent with this act, respecting:

(a) The holding of meetings, and the place and time of, and the order of business at such meetings.

(b) The filling of vacancies in the board by election, and the taking and receiving of votes of registered practitioners by proxy or otherwise at such elections.

(c) The conduct of examinations and the granting of certificates upon matriculation.

(d) The registration of members:

(e) The fees payable for registration, certificates, licenses and examinations under this act, and fixing the amount of such fees; and

(f) The inquiry by the board into complaints against persons charged with an offense under section 23 of this act, and the mode of procedure thereon.

8. The board may make such further rules, subject to approval by the governor in council, as they may deem necessary for carrying into effect the purposes of this act.

9. No person shall begin or enter upon the study of medicine, surgery or midwifery, in this colony, unless he shall have obtained from the Newfoundland Medical Board a certificate that he satisfactorily passed a matriculation or preliminary examination on the subject in Schedule A hereto.

10. No candidate shall be admitted to such matriculation or preliminary examination unless he shall have, at least fourteen days previous to such examination, given notice to the registrar of his intention to present himself for such examination, and shall, before the examination, have paid to the registrar the fee prescribed by the board.

11. The board shall cause to be kept by the registrar a book or register, in which shall be entered the name of every person registered, according to the provisions of this act, together with his place of residence, and the medical titles, diplomas and qualifications conferred by any college or body, and the dates thereof, and the said register shall be in the form in Schedule B, or as near thereto as may be found convenient. Those persons only whose names are inscribed in the book or register shall be deemed to be qualified to practice medicine, surgery, or midwifery in this colony.

12. The registrar shall, on or before the 15th day of January in each year, cause to be printed and published in the Royal Gazette a copy of said register containing the names in alphabetical order according to the surnames of all persons appearing on the register at that date.

13. Such register shall be called "The Newfoundland Medical Register," and a copy of the same for the time being shall be prima facie evidence in all courts and before all justices of the peace and others, that the persons therein specified are registered according to the provisions of this act, and the absence of the name of any person from such register shall be prima facie evidence that such person is not registered according to the provisions of this act.

14. The registrar shall enter upon the register the names of all persons registered under the Act 56 Vic., Cap. 12, without fee.

15. Every person shall be entitled to have his name registered on the Newfoundland Medical Register upon satisfying the board that he holds a medical degree or diploma from some regular university or school of medicine, having a four years' course of study, and that he has, prior to obtaining such degree, passed a preliminary or matriculation satisfactory to the board, and upon paying to the registrar the fee prescribed by the board.

16. No qualification shall be entered on the register either on the first registration or by way of addition to a registered name, unless the registrar is satisfied by proper evidence that the person claiming such qualification is entitled to it. An appeal from the registrar shall be decided by the board.

17. Any entry proved to the satisfaction of the board to have been fraudulently or incorrectly made may be erased from the register by an order of the board.

18. Any person registered under this act who may have obtained any higher degree or diploma, other than that already recorded in the register, shall be entitled to have the same inserted in the register in addition to or in substitution for that previously inserted.

19. Every registered medical practitioner shall annually, before the 10th day of January, take out from the registrar a certificate to practice, for which he shall pay to the registrar the fee prescribed by the board. The said fee shall be deemed to be a

debt due by each registered medical practitioner to the board, and shall be recoverable with costs in an action in the name of the Newfoundland Medical Board before any stipendiary magistrate or justice of the peace.

20. Every person registered under this act who shall have taken out the certificate, as provided in Sec. 19, shall be entitled to practice medicine, surgery and midwifery in any part of this colony, and to demand and recover in any court reasonable charges for professional aid or advice, together with the cost of any medicine or other medical or surgical appliance supplied by him.

21. Any person entitled to be registered under this act, who neglects or omits to take out the certificate provided in Sec. 19, shall not be entitled to any of the rights or privileges conferred by registration so long as such neglect or omission continues, and he shall be liable to all the penalties imposed by this act upon unqualified or unregistered practitioners.

22. The board may, after examination, grant to any person, not otherwise qualified or entitled to registration under this act, a license to practice medicine, surgery or midwifery for a limited period in specified localities. The names of such licensees, together with the period for, and the locality in, which they may practice, shall be entered in the register and published as hereinbefore provided in the case of registered medical practitioners. Such licensees shall pay the fee prescribed by the board, and shall thereupon be entitled to demand and recover in any court reasonable charges for aid and advice, together with the cost of any medicine or other medical or surgical appliances supplied by him during the period and within the limits of his license.

23. Whenever a medical practitioner or licensee registered under this act has been or may hereafter be found by the medical board, after due enquiry by a committee of their number or otherwise, guilty of professional misconduct or malpractice, or of conduct unbecoming a practitioner, the said board may resolve that such medical practitioner or licensee is unworthy to practice medicine, surgery or midwifery in this colony and strike his name off the books and the register, either absolutely or for a limited period, and thereupon all the rights and privileges of the said medical practitioner or licensee shall henceforth cease and determine, either absolutely or for such period.

(a) Such medical practitioner or licensee may appeal from such decision to the supreme court at its next sitting, upon giving due notice thereof to the said board (in which notice shall be set forth the grounds of appeal) within fourteen days after the passing of such resolution. When such notice shall have been given, the secretary shall transmit all papers connected with the charge and proceedings thereunder and the evidence taken thereon to the supreme court. If no notice be given within the time specified, or in case such appeal be not prosecuted at the next sitting of the supreme court, the resolution of the board shall stand confirmed.

24. It shall not be lawful for any person not registered to practice medicine, surgery or midwifery for hire, gain or hope of reward, and if any person not registered pursuant to this act practices, or professes to practice medicine, surgery or midwifery, or advertises to give advice, or gives advice, in medicine, surgery or midwifery for hire, gain or hope of reward, he shall, upon conviction in a summary manner before a justice of the peace, pay a penalty not exceeding fifty dollars, or, in default of payment, be imprisoned for a period not exceeding six months.

25. Any person who wilfully or falsely pretends to be a physician, doctor of medicine, surgeon or medical practitioner, or assumes any title, or addition or description other than he actually possesses or is entitled to, shall be liable, upon conviction thereof in a summary manner before a stipendiary magistrate or justice of the peace, to a penalty not exceeding fifty dollars, or, in default of payment, to imprisonment for a period not exceeding three months.

26. Any person, not registered pursuant to this act, who takes or uses any name, title, addition or description, implying or calculated to lead people to infer that he is registered under this act, or that he is recognized by law as a physician, surgeon, accoucheur, or a licentiate in medicine, surgery or midwifery, shall be liable, on conviction thereof in a summary manner before a stipendiary magistrate or a justice of the peace, to a penalty not exceeding fifty dollars, or in default of payment, to imprisonment for a period not exceeding six months.

27. No person shall be entitled to recover in any court any charge for any medical or surgical advice, or for attendance, or for the performance of any operation, or for any medicine which he may have prescribed and supplied, unless he is registered under this act, and shall have for the current year taken out the certificate provided in section 19, or the license provided in section 22 of this act.

28. In any trial or prosecution under this act the burden of proof shall be upon the person charged.

29. All penalties recovered under this act shall be paid to the registrar, and shall form part of the funds of the board. Any person may be prosecutor or complainant under this act, and the board may allot such portion of the penalties recovered as may be expedient towards the payment of such prosecutor.

30. No person shall be appointed as medical officer, physician or surgeon in any branch of the public service, or in any hospital or other charitable institution, unless he is registered under this act.

31. Any person, whilst employed in actual service in any naval or military service as physician or surgeon, may practice medicine, surgery or midwifery in Newfoundland after having been registered.

32. Nothing in this act shall prevent private persons from giving necessary medical or surgical aid in times of urgent need, provided that such aid is not given for gain or hire.

33. Nothing in this act shall prevent the practice of midwifery by females.

34. If the registrar shall wilfully cause any name to be placed on the register not in accordance with the provisions of this act, he shall forfeit the sum of one hundred dollars, and be removed from his office by the said board.

Cap. VIII—An Act to amend "The Newfoundland Medical Act, 1896."

1. Section 15 of "The Newfoundland Medical Act, 1896," is hereby repealed, and the following substituted therefor:

(15) Every person shall be entitled to have his name registered on the Newfoundland Medical Register upon satisfying the board that he holds a medical degree or diploma from some regular university, or school of medicine (not being an honorary degree) having not less than a four years' course of study, and that he has, prior to obtaining such degree, passed a preliminary or matriculation examination satisfactory to the board; provided, however, that every person desirous of being registered under the provisions of this act shall, before being entitled to registration, furnish to the board satisfactory evidence of identification, and shall pass before the members thereof, or such other examiners as may be appointed by the board for that purpose, a satisfactory examination touching his fitness and capacity to practice as a physician and surgeon.

2. The following provisions shall apply to the examination provided for under the next preceding section:

(1) Examinations shall be held regularly in St. John's on the second Tuesday in June in each year; provided, that the said board may, if the said board deem it expedient, upon a special application in writing by any intending candidate for that purpose hold a special examination on any other date in any year.

(2) Any person desirous of presenting himself for examination under this act shall, at least fourteen days before the date of such examination, give to the registrar of the board at least fourteen days' notice in writing of his intention to so present himself, and shall with such notice pay to the registrar for the use of the board, in case of candidates at the regular annual examination of the board, a fee of fifty dollars and in case of a candidate at a special examination held on the application of such candidate, a fee of one hundred dollars.

(3) The said examination shall be conducted orally and in writing, and shall be upon the following subjects, namely:

(a) Medicine, including pathology and therapeutics.

(b) Surgery, including pathology and surgical anatomy.

(c) Midwifery, including diseases of women and children.

(4) The board may from time to time make rules and regulations for holding and conducting of the said examinations.

3. A person who holds a medical degree or diploma from any of the regular universities or colleges in the United Kingdom, Dominion of Canada and the British Colonies, who has satisfied the conditions mentioned in Sec. 15 of this act as to his qualifications, and who has been duly registered under the laws in force in any of the above places where an equivalent examination to the one therein established is conducted shall be entitled without examination to be registered upon the Newfoundland Medical Register upon paying the prescribed fee and upon producing to the board a certificate of good standing in the profession from the registrar or other officers of the medical body having jurisdiction in the place at which he is registered, and satisfactory evidence that he has not lost the benefit of his said registration by misconduct or for any other cause whatsoever.

4. The board may, before accepting an applicant for registration under Sec. 3 of this act, require such applicant to attest upon oath before a justice of the peace or stipendiary magistrate the evidence required by the said action.			
5. Whenever by any law now or hereafter existing in this colony any certificate or other document shall be required to be given or signed by a physician, surgeon or medical practitioner, such certificate or other document shall be void, unless the person giving or signing the same shall be a duly registered practitioner under the provisions of this act.			
6. All monies received by the board, or any officer thereof, shall be paid over to the treasurer, and shall be applied for the purposes of the board under this act.			
7. Sec. 30 of the Newfoundland Medical Act, 1896, is hereby repealed and the following substituted therefor:			
(30) No person shall be appointed as medical officer, physician or surgeon in any branch of the public service, or in any hospital or other charitable institution, or shall act within this colony as medical officer, physician or surgeon to any company or corporation unless he is duly registered under this act.			
8. This act shall be read with and form part of "The Newfoundland Medical Act, 1896," and the two acts may be cited as "The Newfoundland Medical Act, 1896-1906."

## SYNOPSIS OF MEDICAL LAW OF CUBA.

Graduates of foreign institutions must present their degree to the Department in Charge of Public Instruction, and this degree must be registered by the University of Havana, providing it has been issued by an authorized institution, one which fully authorizes professional practice in the country, state or territory wherein the degree was issued; that the signatures thereto are duly legalized; each of these requirements to be proven by a certificate properly attested.

After having furnished such proofs, the department grants permission for an examination, the petitioner to be properly identified, on receipt of \$35.00 in United States money or its equivalent. The examination is theoretical, and consists of a clinical examination of one patient, description of the method of performing a prescribed operation, and a thesis, five hours being allowed for the writing of this thesis. All examinations, both written and oral, are held in Spanish, or through an interpreter; the interpreter to be chosen by the department, the applicant to pay \$15 for his services. Re-examination after six months without extra charge is permitted.

## LIST OF PHYSICIANS

ARRANGED ALPHABETICALLY BY POSTOFFICES.

For Corrections and Names Received Too Late for Regular Insertion, see Supplement.  
Refer to Index for Location.

## ABBREVIATIONS:

R., Regular; H., Homoeopathic; Ecl., Eclectic; P. M., Physio-Medical; \*, No report received; \$, Holds certificate of Examining Board; †, Legally authorized under the "years of practice" section of the act; ‡, Druggist; {, Dentist. R. F. D. 1, Rural Free Delivery No. 1.

The postoffice address is shown in DISPLAY TYPE, the name of the county in which it is located immediately follows and then the population of the place. The names of physicians appear under the postoffice name, the first number (the key to which will be found on pages 145-189) indicates the college of graduation, and the last number the year in which diploma was granted.

## HAITI.

### HAITI MEDICAL LAW.

The Jury Medical (Medical Board), which consists of four physicians and one druggist, is appointed by the president of the Republic for a period of two years. The board elects one of its members to act as president. All physicians and dentists desiring to pursue the practice of their profession are required to pass an examination before this board, and if satisfactory a license to practice is granted. The same requirement is exacted from foreign as well as native physicians and dentists. There is no charge or fee for this examination.

## SYNOPSIS OF JAMAICA MEDICAL LAW.

The medical council of Jamaica was established by Law 47 of 1872, and consists of five registered medical practitioners, appointed for three years by the governor, and eligible for reappointment. The appointment of a president and the election of a secretary are placed by the law in the hands of the council. The business of the council includes:

(a) The framing of rules, etc., which have the effect of law after having been approved by the governor in privy council.

(b) The consideration of the diploma, license, or certificate of any person claiming to be registered as a medical practitioner in this island.

(c) The removal from the register of any registered practitioner convicted of felony or misdemeanor, or who might be guilty of infamous conduct in any professional respect.

Law 28, of 1885, requires the registration of any person who holds a diploma, license or certificate, "conferring or evidencing the possession by him of any qualification entitling him to registration." Any person not qualified to be registered, but who holds a diploma, or license, or certificate granted to him by any university, or by any college or faculty of physicians or surgeons, after and in consequence of his having passed through the course of study and examinations prescribed by such college or faculty of physicians or surgeons, and who wishes to become qualified and to be registered as a medical practitioner in this island, may become so qualified and be so registered on passing a satisfactory examination in medicine, surgery and midwifery. Such examination must be conducted by a board of examiners, to be appointed by the governor from the medical council, and "shall be practically as searching as the least searching final examination required to be passed in the United Kingdom prior to, and as a condition of, the obtaining of a qualification entitling the person examined to be registered in the United Kingdom." If the board of examiners find the candidate sufficiently informed or sufficiently skilled, they shall give him a certificate entitling him to be registered under the medical laws of this island. The fees for examination amount to £12 12s, and must be deposited beforehand with the secretary. A fee of three guineas is given to each member of the board of examiners, and three guineas to the secretary of the medical council, who is ex-officio secretary to the boards of examiners. A fee of £1 is to be paid to the registrar-general in every case of registration in ordinary cases.

#### LAW IN REGARD TO MEDICAL STUDIES AND THE PRACTICE OF MEDICAL PROFESSIONS.

In Mexico, as in all other countries, no person is allowed to practice medicine or any medical profession without proof that he or she is a graduate of an authorized college or university.

The studies, when made in Mexico, have to be made respectively, as the case may be, in the National School of Medicine, the hospitals of mental diseases, the Charity Central Warehouse, the National Institute of Dental Instruction, the National Medical Institute, or the Pathological Institute.

When made in foreign countries the studies may be validated in Mexico upon application to the Secretary of Justice and Public Instruction, and the proof, by the proper certificate, that they have been made in accordance with the provisions of the Mexican law. Validation thus granted exempts the candidate from the necessity of being examined.

The medical professions, as classified by the decree of January 11, 1902, providing for a "Plan of Studies for the National School of Medicine," are four, as follows:

1. Medicine and surgery.
2. Pharmacy.
3. Obstetrics.
4. Dental surgery.

The course in medicine, covering a period of six years, embraces: Descriptive anatomy, with practical dissection exercises; general and histological anatomy, theoretical and practical, with the proper practical exercises; topographic anatomy with practical exercises, and pathological anatomy; physiology, with experimental demonstrations; biological chemistry; galenic pharmacy; bacteriology; pathology, medical, surgical and general; therapeutics, medical and surgical; theoretical obstetrics; clinics, internal, external, propedeutical, and surgical; medical paediatric clinic; surgical gynecological clinics; clinic of ophthalmology; clinic of psychiatrics; legal medicine and deontology.

The course in pharmacy, covering a period of three years, embraces: Pharmacy, posology, pharmaceutical economy, legal pharmacy, deontology, chemical and pharmaceutical manipulations; practical management of the physical and chemical instruments and apparatuses used in pharmacy; natural history of the simple drugs used in Mexico, chemical analysis, general and applied to medicines, toxicology, and the examination of food and beverages, and of the principal physiological and pathological products.

Practice in the Charity Central Warehouse, or in the drug store of a government hospital, shall also be required as a condition for graduation.

The course in obstetrics, covering a period of two years, embraces: Anatomy and physiology of the feminine sexual apparatus, including the study of the pelvis; elements of embryology and fetal anatomy; pregnancy, labor, and puerperal conditions, physiologically considered; care required by the mother of the newly born child; obstetrical antisepsia; obstetrical hygienics; obstetrical therapeutics; obstetrical operations, with exercises on the manikin; and clinic, obstetrical and propedeutical.

The course in dental surgery, covering a period of three years, embraces: Descriptive anatomy, with dissection exercises; topographical anatomy of the head and especially of the mouth; histology, with special reference to the elements constituting the mouth; physiology; dental pathology; morbid processes in general; dental therapeutics; dental materia medica; dental surgery; dental operations; dental prosthesis; dental metallurgy; bacterioscopy.

# Medical Laws OF EACH STATE REVISED TO DATE, FOR READY REFERENCE IN POLK'S MEDICAL REGISTER AND DIRECTORY

Mexico

OF NORTH AMERICA.

State of Campeche 2077

Article 22 of the decree provides that the studies above described, whether purely preparatory or professional, made in a foreign country, may be validated by the Secretary of Justice and Public Instruction, upon such conditions as he may require.

Article 28, translated into English, reads as follows:

"Article 28. Persons holding diplomas from official schools of the Republic, different from those designated by the decree, or from foreign universities, who may desire to obtain the same from the schools and institutions named in Article 1 of this decree, for the practice of any of the medical professions established by this plan, shall subject themselves to examination, in the National Preparatory School, or in the National School of Medicine, in every one of the matters or branches above described for each profession; and if approved, they shall have to pass also the respective professional examination. But if the candidate shall prove by a competent certificate to have studied some matters in conformity with the provisions of the Mexican plan, the said studies shall be validated, and he shall be exempted from examination in the same. It shall not be necessary to take up the different subjects of examination in regular order.

# ==OF ESPECIAL INTEREST TO== PHYSICIANS, LAWYERS CLERGYMEN, TEACHERS

The Medico-Legal Journal is the only Journal in North America devoted exclusively to Medical Jurisprudence. Edited by CLARK BELL, ESQ., LL. D.

It announces its 25th Anniversary Volume, commencing with the June number, 1907, which contains an original, hitherto unpublished article on Tuberculosis by Prof. Dr. Moritz Benedikt of Vienna; Questions and Answers by the Medico-Legal Society to the Mahatma SRI AGAMYA GURU PARAMAHAMSA, on the Vedanta Philosophy; the Supreme Court Appellate Divisions in New York and Biographies of Judges; Introduction to the discussion of Alcohol as a Diet introduced in the London Lancet; Reforms in the Law of Expert Medical Testimony by various writers; Portraits of the Judges of the present New York Court of Appeals, and other prominent Jurists.

The September number, 1907, contains articles contributed to the AMERICAN INTERNATIONAL CONGRESS ON TUBERCULOSIS at New York of November, 1906, by Prof. Dr. Otto Von Schroen, of the Royal University of Naples on THE PHTHISIOGENEOUS MICROBE OF PHTHISIS OF THE LUNG, with beautiful illustrations, and papers on LONGEVITY and its relation to USEFUL WORK, inspired by the recent munificent gift of Mrs. Russell Sage, by various authors.

The December number contains articles on LONGEVITY, RACE SUICIDE, POWER OF THE MIND, MEDICO-LEGAL CASES, MEDICAL JURISPRUDENCE OF INSANITY, SURGERY OF VIOLENCE, and RAILWAY CASES, with Portraits of Judges of New York Court of Appeals and of the Supreme Court.

Price \$3.00 per volume in advance. Vols. 25 and 26 will contain the completion of the JUDICIAL HISTORY OF THE SUPREME COURT OF NEW YORK, and of the NEW YORK COURT OF APPEALS, with Portraits and Biographies of the Judges who have served on the Bench of these Courts; and the Bulletin of the AMERICAN INTERNATIONAL CONGRESS ON TUBERCULOSIS, held at NEW YORK, November, 1906, with the articles contributed and illustrated by portraits of many of its officers and members.

These volumes 25 and 26 will be sent at half price to physicians, lawyers, clergymen, teachers and to every member, officer or delegate of the American International Congress on Tuberculosis, held at St. Louis in 1904, New York, 1906, or as announced for June, 1908, at Chicago, if paid in advance, \$1.50 per annum. ## DEPARTMENT OF MEDICINE

The Annual Session begins on the last Friday in September, at 12 M., and ends at commencement, the third Wednesday in June. The Curriculum is graded, and attendance upon four annual sessions is required. Practical instruction, including laboratory work in Chemistry, Histology, Osteology, Bacteriology, Pathology, Physiology and Pharmacy, with bedside instruction in Medicine, Surgery, Gynecology and Obstetrics, is a part of the regular course, and without additional expense.

### FACULTY

JAMES TYSON, M. D., Professor of Medicine.

EDWARD T. REICHERT, M. D., Professor of Physiology.

BARTON COOKE HIRST, M. D., Professor of Obstetrics.

J. WILLIAM WHITE, M. D., John Rhea Barton Professor of Surgery.

GEORGE A. PIERSOL, M. D., Professor of Anatomy.

JOHN MARSHALL, M. D., Nat. Sc. D., LL. D., Professor of Chemistry and Toxicology.

LOUIS A. DUHRING, M. D., Professor of Dermatology.

ALEXANDER C. ABBOTT, M. D., Pepper Professor of Hygiene and Bacteriology.

JOHN G. CLARK, M. D., Professor of Gynecology.

GEORGE E. de SCHWEINITZ, M. D., Professor of Ophthalmology.

CHARLES H. FRAZIER, M. D., Professor of Clinical Surgery, and Dean of the Faculty.

ALLEN J. SMITH, Professor of Pathology.

DAVID L. EDSALL, M. D., Professor of Therapeutics and Pharmacology.

DeFOREST WILLARD, M. D., Professor of Orthopedic Surgery.

JOHN H. MUSSER, M. D., Professor of Clinical Medicine.

ALFRED STENGEL, M. D., Professor of Clinical Medicine.

EDWARD MARTIN, M. D., Professor of Clinical Surgery.

CHARLES K. MILLS, M. D., Professor of Neurology

WILLIAM G. SPILLER, M. D., Professor of Neuropathology and Associate Professor of Neurology.

CHARLES W. BURR, M. D., Professor of Mental Diseases.

R. TAIT McKENZIE, M. D., Professor of Physical Education.

DANIEL J. McCARTHY, M. D., Professor of Medical Jurisprudence.

B. ALEXANDER RANDALL, M. D., Clinical Professor of Diseases of the Ear.

J. P. CROZIER GRIFFITH, M. D., Clinical Professor of Diseases of Children.

## COURSE OF INSTRUCTION AND FACILITIES.

Four years of graded instruction are required of candidates, presenting themselves for the degree of M.D. The instruction consists in didactic lectures, amply supplemented by clinical teaching at the bedside and in the laboratories and dispensaries. In addition to the members of the Faculty named above, there is a large corps of experienced instructors who assist the professors in practical work in the laboratories or in bedside work at the hospitals and dispensaries. Every candidate for the degree is personally taught, by dividing the class into small sections, in Clinical Medicine and Physical Diagnosis, Obstetrics and Gynecology, Major and Minor Surgery and Bandaging, Orthopedic Surgery, Diseases of Children, Ophthalmology, Neurology, Otolaryngology, Dermatology, Laryngology, and Genito-Urinary Diseases. Ample clinical material is afforded by the Jefferson College Hospital, in which no less than 300 patients are treated daily, and by the Philadelphia and other Hospitals. Laboratory instruction is given in Medical Chemistry, Pharmacy, Physiology, Clinical Microscopy, Anatomy, and Histology, Embryology, and in Operative Obstetrics, Surgery, Pathology and Hygiene. Daily instruction in the practical branches given in the new Hospital of the College, is a special feature of the course in the second and third and fourth years, and is without extra charge. Special Laboratory instruction is given to graduates of medicine in Bacteriology and Pathology. The Annual Announcement, giving full particulars, will be sent on application to

# Hahnemann Medical College and Hospital

CHARTERED 1848

Broad Street, above Race, - PHILADELPHIA

## REMEMBER:

1st. That the Hahnemann Medical College of Philadelphia is the oldest Homœopathic Medical College in the world, and her alumni, 2,899 in number, are found in every State in the Union and in the Faculty of every Homœopathic Medical College in the country.

2d. That its College and Hospital buildings are new and modern in construction and complete in every detail.

3d. That they are located in the heart of the city, within two squares of the City Hall, and convenient to all places of interest and public resort.

4th. That it has a museum of Anatomical and Pathological specimens not excelled in size and variety in this country.

5th. That it has a library of 15,000 volumes to which students have access.

6th. That its Laboratories—Anatomical, Physiological, Histological, Chemical, Pharmacological, etc., etc.—are fully equipped in every detail.

7th. That it has a corps of experienced Professors, Lecturers and Demonstrators, 75 in number.

8th. That its teachings are broad and liberal, embracing everything essential to a thoroughly educated modern physician.

9th. That it has a large Hospital in which about 40,000 patients are treated annually, and that senior students have eight months' experience in the several departments of its Dispensary, in which they examine, diagnose and treat hundreds of cases, embracing all classes of disease and accident, under the direction of the Professors and Instructors.

10th. That in the Obstetrical Department every senior student is drilled in the use of Obstetrical instruments, performs all the operations, and attends cases of confinement.

11th. That it requires a high school education or equivalent, and a four years' course of lectures.

12th. That Philadelphia is renowned as the medical center of the country; is a delightful place of residence, and offers a home for the student full of attractions and interesting historical associations.

13th. That announcements may be had by addressing HERBERT L. NORTHROP, M. D., Dean, Hahnemann Medical College, Philadelphia, Pa.

# *The Harvard Medical School*

The new buildings, four of which are devoted entirely to laboratory teaching and research, were dedicated September 25, 1906. Abundant facilities for general and special clinical instruction in medicine and surgery are afforded by the numerous hospitals of Boston.

## *Course for the Degree of M. D.*

A four years' course, open to bachelors of arts, literature, philosophy, or science, and to persons of equivalent standing, leads to the degree of M. D. The studies of the fourth year are wholly elective; they include laboratory subjects, general medicine, general surgery, and the special clinical branches. The School-year extends from the first Thursday after the last Wednesday in September to the last Wednesday in June.

## *Graduate Courses*

Throughout the School-year, special courses open to graduates of recognized medical schools are offered in the various subjects of practical medicine and the medical sciences.

## *Summer Courses*

During the summer months, similar courses are open to both medical students and graduates.

## *Research Work*

In all the laboratories opportunity is given at all times for properly qualified persons to conduct original investigations.

## *Special Students*

Students not candidates for the degree of M. D. are admitted, under certain conditions, to all courses in the school.

HON. JOSEPH BENNETT, President. CHARLES H. COBB, M. D., Dean.  
J. H. JACKSON, A. M., M. D., Registrar.

Matriculation examination requirements are in accordance with those of the Association of American Medical Colleges. Special Preliminary Course without extra expense, as provided in the College Announcement.

## PLAN OF INSTRUCTION

The plan of instruction comprises a four years' graded course, consisting of didactic and clinical lectures, conferences, laboratory practice, etc., upon the essential branches of the Science of Medicine. In addition to the lectures, there are recitations, clinical teaching and practical work in the laboratory and the dissecting room.

## REQUIREMENTS FOR GRADUATION

Candidates must be at least twenty-one years of age. They must have attended four annual courses of lectures of not less than six months' duration, each in different years, at this College; or have attended three such courses at some other recognized medical college or colleges, and one at this; or, have attended two such courses at some other recognized medical college or colleges and two at this; or, have attended one such course at some other recognized college and three at this; or, having been admitted to advanced standing in this College, by having pursued a prescribed course or courses of study in other recognized colleges and universities, as set forth by the Association of American Medical Colleges, shall be required to have attended at this College only such courses of lectures as are necessary to complete the curriculum of four annual courses of lectures. Candidates must have dissected all parts of the cadaver. They must have attended six cases of obstetrics.

The Twenty-eighth Regular Session will commence on the THIRD WEDNESDAY IN SEPTEMBER, 1908, and continue until the third Wednesday in June, 1909.

# Northwestern University Medical School

(CHICAGO MEDICAL COLLEGE)

**DR. ARTHUR R. EDWARDS, Dean**

**T**HIS Medical School was the pioneer in insisting upon the following points in medical education: The enforcement of a standard of preliminary education; the adoption of longer annual courses; grading of the curriculum.

The regular course now includes four years of eight months each.

The buildings now occupied by the school were erected in 1893. One is a model laboratory building; the other an admirably arranged out-patient hospital.

The equipment of the laboratories is very complete. The professors of chemistry and physiology are practical men and very successful teachers. They devote their entire time to the college. The pathological department is especially well equipped. The courses are most thorough and practical.

The curriculum is arranged in four entirely separate and distinct consecutive annual courses. Instruction is by didactic and clinical lectures, recitations, demonstrations and laboratory and clinical exercises.

The clinical material is unusually large and varied. It is drawn from the Cook County, Provident, People's, South Side Dispensary, located in the College Building, and Mercy, St. Luke's, and Wesley Hospitals. Over 25,000 cases were treated in the dispensary last year. Clinical instruction is graded, the simplest specialties being taught first. Clinics are so numerous that each individual student is able to examine patients thoroughly. The seniors make ward visits in divided classes and thus keep track of all the hospital patients. Students in the first year will attend some clinics; those of the other three years comprise the clinical class, and are divided into two divisions—hospital and dispensary. The hospital division is subdivided, one section attending Mercy Hospital and the "College Clinics," the other attending St. Luke's Hospital and the "College Clinics." In the dispensary, the patients are assigned to its several departments, medical, surgical, et al., and small groups of students are assigned for daily work in these departments, the assignments so arranged that each group works four consecutive weeks in each department, and in the course of the year in all departments. The "College Clinics" are conducted by the professors of the several departments, and fourteen are given each week. Dispensary and college clinic hours are from 10 to 12 a. m. and 2 to 4 p. m.

**FEES:** A matriculation fee of five dollars is paid once. Annual fee is one hundred and seventy-five dollars. A deposit of ten dollars is required to cover breakage; if none occurs this fee is returned. A discount of \$15 is allowed if all fees and deposits are paid on or before October 7th, 1908.

For circulars of information, address the Secretary.

# Rush Medical College

IN AFFILIATION WITH

## The University of Chicago

### CHICAGO

**HISTORY.**—Rush Medical College, chartered in 1837, was opened for instruction in 1843, and has been in continuous operation since that time. It entered into affiliation with The University of Chicago in 1898.

**LOCATION.**—The fundamental branches, comprising the first two years of the curriculum, are taught at The University of Chicago in the spacious Hull Biological Laboratories by members of the University faculty, who devote their time and energies exclusively to teaching and investigation along their chosen lines. All the privileges and advantages of the University are enjoyed by the students taking the medical courses.

**INSTRUCTION** in the clinical branches is given at Rush Medical College, corner of West Harrison and Wood streets, in the Central Free Dispensary and the Presbyterian Hospital, connected directly with the college, and in the Cook County Hospital, St. Luke's Hospital, Illinois Charitable Eye and Ear Infirmary, the West Side Hebrew Dispensary, and other hospitals in the neighborhood of the college.

**THE REQUIREMENTS FOR ADMISSION** comprise (a) the completion of a four-year high-school course, and in addition, (b) two years of work in a recognized college or university. This work must have included a thorough course in College Chemistry—inorganic, organic, and qualitative analysis; a course in College Physics with laboratory work; a course in general Biology, with laboratory work; and a reading knowledge of German or of French. A student may be admitted with conditions in not more than six majors of College work.

It is the firm conviction of the Faculty that, under the conditions now prevailing in the practice of medicine, and which are rapidly becoming more exacting, no person can afford to enter upon the study of medicine with a preparation less thorough and comprehensive than that demanded by these requirements. The Medical Examining Boards in some of the states have announced their intention to require this amount of premedical work as a prerequisite for licensure in the near future.

**THE CURRICULUM.**—The curriculum of Rush Medical College, extending over four or five annual sessions of nine months (three quarters) each, embraces (1) two years of work in the fundamental branches of Anatomy, both gross and microscopic, Neurology, Embryology, Physiology, Physiological Chemistry, Pharmacology, Bacteriology and Pathology; and (2) two or three years in the clinical branches of Materia Medica, Therapeutics, Clinical Pathology, Medicine, Surgery, Obstetrics, and the special lines of practice.

**FIFTH YEAR.**—Beginning with the year 1905-6, a FIFTH year was added to the curriculum which, until further announcement, is optional.

The work of this year will be that of

- A. Graduate work in one of the departments of the College, either as a Graduate student or as a Fellow; or
- B. An internship in a hospital under the following conditions:
  1. Each student taking such work will be under the constant supervision of the Faculty, by whom the hospital in which the internship is taken must be approved.
  2. The student must present evidence of thorough clinical work, and a thesis embodying original work.
  3. He will be required to pass a special examination at the end of the year.

On the successful completion of this fifth year he will receive the degree of Doctor of Medicine, cum laude.

**COMBINED COURSE.**—A combined course of six years is given by The University of Chicago and Rush Medical College, leading to the degrees of A. B. or B. S. and M. D.

**THE ELECTIVE SYSTEM.**—The work of the first two years of the medical curriculum is in part, and that of the last two years largely, elective, the choice of the student for each quarter being subject to certain restrictions.

**THE QUARTER SYSTEM.**—The College is in session during four quarters each year, and a student may enter at the beginning of any quarter. Students beginning their medical work, however, are advised to commence with the Autumn Quarter.

**THE TUITION FEE** is sixty dollars per quarter, or one hundred and eighty dollars for each of the four annual sessions, this tuition including all laboratory fees.

**STUDENT SELF-HELP.**—Many opportunities are afforded in Chicago for students to earn a portion (and in exceptional cases the whole) of their expenses.

**PRACTITIONERS ADMITTED.**—All the courses offered are open to practitioners, to whose needs they have been found to be very well adapted.

Medical Department of

## SYRACUSE

## UNIVERSITY

**HISTORY.**—The famous Fairfield (N. Y.) Medical School was organized in 1812. In 1841 part of its faculty went to the Geneva Medical School and the other part to Albany. The fame of the Geneva School was soon well established. Of the learning and eloquence of her lecturers the graduates always speak with enthusiasm. In 1872 the Geneva School became the Medical Department of Syracuse University. With advancement in medical education the Syracuse School has supplemented its lecture courses by recitations and practical work in laboratories and hospital wards, and has arranged all as a four years' graded curriculum—steadily keeping its standard of admission and scholarship in advance of the legal requirements of the State.

**MAIN BUILDING.**—The main college building, with its attractive lecture rooms, numerous, spacious and well equipped laboratories, library, large study rooms for men and women respectively, modern lavatories, individual students' lockers, photographic dark rooms and an electric plant for running elevator, physiological laboratory apparatus and supplying incandescent lighting, arc lights for lantern, microscopic projection and photo-micrography, and an ample cold storage plant for the preservation of anatomical material, is one of the better appointed medical schools of the United States.

**COLLEGE LIBRARY.**—A rapidly growing medical library of more than 7,000 bound volumes, and a large number of the more important current medical and scientific periodicals, is accessible to students of the college.

**HOSPITALS AND DISPENSARY.**—Two large general hospitals, a children's hospital, a large county orphan asylum, an extensive state institution for feeble-minded children and a city free dispensary, are at the service of the faculty and are all utilized for purposes of clinical instruction.

**FACULTY.**—In the faculty are enthusiastic, progressive teachers who strive to advance medical education by accepting as students only well prepared men and women and insisting upon undergraduates continuing capable and doing steadily step by step the prescribed work of the curriculum. The work is so graded, however, that willing and industrious students of average ability experience little difficulty in meeting these demands.

**UNIVERSITY ATHLETICS.**—A Stadium, recently constructed upon the ancient amphitheatre plan, seats about 20,000 people and provides unusual accommodations for college sports and competitive games. At one end of the Stadium is being built an unusually large and well-appointed gymnasium. Fee, \$6.00 annually.

**COLLEGE FEES.**—The annual matriculation fee is \$5.00. The annual tuition fee is \$125. Laboratory and graduation fees amount, during the four years' course, to \$125.

**ROOMS AND BOARD.**—Good rooms for one student can be had in Syracuse for from \$6.00 upward per month, and the same rooms occupied by two students for from \$8.00 upward per month. By clubbing together in clubs of from six to twelve students, good board can be had for \$2.50 a week per student.

Regarding the St. Louis Medical Review as an advertising proposition, it covers the Mississippi Valley and the Southwestern section of the country more effectively than any other journal, outside of the Journal of the American Medical Association. A striking feature of the new policy of the Review is the fact that the editorial supervision of the Review is under the entire control of the sixteen members of the staff, each one being a strict specialist in his respective line, thus affording unusual advantages to a general practitioner from a professional standpoint. A striking indorsement of the St. Louis Medical Review appeared in the Indiana Medical Journal for August, 1907, which read in part as follows:

"The secret of its remarkable growth and power lies in the personality of the editor and his department workers, the latter including many of the leading professors of the St. Louis Medical Schools.

"The Review editorials have been overflowing with life, love and humor. There has been thought, philosophy and abstract and scientific truth, but always illuminated with a never-failing humor, never sarcastic or cynical, but sane, fervid, healthful and of course entertaining and interesting.

"You might GIVE away a copy of the Review, but you would never throw it away and this just because of the interest it invoked, the charm of the old Greek civilization, Arnold maintains, was that it was INTERESTING. In the last analysis of a play, or a book, or of a civilization, or even of a medical journal, we will stand or fall by it in making our judgment to the extent that it is interesting. The St. Louis Medical Review has had in every number this element of interest, the sources of which are vitality, aspiration and kindly humor—that it is which has given it distinction and desirability, and we may even go so far as to say elevation and beauty."

# LISTERINE

**A Non-Toxic. Non-Irritant.  
Non-Escharotic Antiseptic.**

**ABSOLUTELY SAFE, AGREEABLE AND CONVENIENT**

Listerine is a well-proven antiseptic agent—an antizymotic—especially useful in the management of catarrhal conditions of the mucous membrane, adapted to internal use, and to make and maintain surgically clean—aseptic—all parts of the human body, whether by spray, injection, irrigation, atomization, inhalation, or simple local application.

Listerine is a swift and sure destroyer of infusorial life; it prevents the various fermentations, preserves animal tissues and inhibits the activity, growth and motion of low forms of vegetable life; hence Listerine may be relied upon to destroy the activity of the living particles which constitute contagion whenever brought into intimate contact therewith.

---

What Dr. N. LaDoit Johnson, of North American Building, Chicago, Ill., says about this tablet:

Chicago, Jan. 4th, 1908.

The Brown Company,  
206 E. Kinzie St., Chicago.

Gentlemen:—Some time ago you asked me my opinion, with regard to your Pheno-Cholate tablets. I have employed them in the treatment of some twenty-five odd cases, where operation has proven the presence of Gall Stones and Cholio-Cystitis.

I have found them the most efficient remedy which has ever come into my hands, for the relief of the inflammatory condition in the Gall Bladder as well as the happy reaction upon the liver.

I use them according to the case, ranging from three to eight a day, and will state that in a number of cases that were badly jaundiced, that they have removed practically all of the discoloration from the skin and the eyes.

I believe you have one of the most valuable combinations in this tablet that has ever been offered to the profession for any of the inflammatory conditions of the Gall Bladder and Bowel passages.

Wishing you success in your efforts to assist the physicians, I beg to remain,  
Yours truly,

N. LA DOIT JOHNSON.

The postoffice address is shown in **DISPLAY TYPE**, the name of the county in which it is located immediately follows and then the population of the place. The names of physicians appear under the postoffice name, the first number (the key to which will be found on pages 145-189) indicates the college of graduation, and the last number the year in which diploma was granted.

# Dr. Moody's Sanitarium

San Antonio, Texas

FOR  
Nervous and  
Mental Diseases  
Drug and  
Alcohol Addictions

Homelike surroundings, conducive to rest, relaxation and recuperation, giving desirable advantages for the rest cure. Formerly the Barnard homestead, consisting of seven acres of beautiful lawn and shades, with an elegant two-story building, to which a beautiful addition has recently been made, and another main building, 200 feet distant, has recently been built in accordance with modern

ideas and plans, the two being occupied by men and women respectively, and three isolated cottages, giving in all about 100 rooms. The equipments are modern and first-class, including electric lights and hot and cold water and steam heat throughout, excellent plumbing, artesian city water supply.

The location is high, beautiful, secluded yet convenient to street car and city. It is within two blocks from Brackenridge Park, covering 200 acres of beautiful shades, flowers, walks and drives. It fronts on the south immediately across the street, a magnificent plot of several hundred acres upon which New Government Post is situated, containing 18 New Officers' residences, about 1/4 mile distant from the Sanitarium; unobstructed from view and unobstructing the fresh south breeze.

The treatment is rational and scientific and along strictly ethical lines. Drs. G. H. and T. L. Moody and Dr. Jno. A. McIntosh reside at the Sanitarium, have their offices there and limit their work exclusively to Nervous and Mental Diseases. The nursing is first-class and patients are under constant observation both day and night.

**Address G. H. MOODY, M. D., 315 Brackenridge Ave., SAN ANTONIO, TEXAS**

(For six years Assistant Physician to State Asylums at San Antonio and Austin, Texas)

# THE GLOCKNER SANATORIUM OR HOME

Is situated at Colorado Springs, in the most healthful and pleasant residence district of the city. The buildings are of brick, finished in hardwood, and steam heated throughout; many of the rooms are en suite with private baths, large closets, and open fire places.

The Glockner is situated in the center of large and handsome grounds, pleasantly laid out, a part of which is used for tents that are occupied by those who prefer out-door life. A feature of this institution is the sun parlors, which run the entire length of the building. These parlors are so arranged as to receive the direct rays of the sun during all hours of the day. They are glass—enclosed and well furnished with rugs, lounging chairs, cots, etc.

The roof garden is another excellent feature. It can be used at all hours during the day and throughout the entire year. An elevator reaches every floor. The Glockner is in charge of the Sisters of Charity, but is in no sense sectarian and patients of all creeds are welcomed and receive the best of care and attention. The institution is in every sense an ideal Home, patronized by the best class of people. Physicians sending patients may rely not only upon all comforts of a first-class sanatorium, but of the devoted care and attention of the Sisters. A training school for nurses is maintained. Thoroughly trained nurses are provided when their services are required.

**The first Homoeopathic Journal published in America, the NORTH AMERICAN, is still regarded throughout the world as the representative journal of the practitioners of homoeopathy in North America.**

The NORTH AMERICAN is not the organ of any professional institution or organization. **It is actuated by a spirit of loyalty to the best interests of homoeopathy and its adherents throughout the country.** It is in no sense local; its circulation in any state compares favorably with that of any local journal.

**The list of subscribers shows a steady increase** among the most successful practitioners, those who will pay three dollars for a high-class journal.

**The editorial policy is distinctly progressive.** It stands for all that is of value in the realm of medicine. It fosters local interests by having a Regular Correspondent in all important centers, including the chief cities of Europe, and is represented at the leading medical meetings by a member of the editorial staff.

The standing of the NORTH AMERICAN is attested by its list of contributors. **The leading practitioners throughout the country** have always chosen it for the publication of their contributions to homoeopathic literature.

# Notice to Physicians

## The Anna Ross Sanitarium

Is run in an ethical and Christian manner. We do no abortion work. Our home is run in a quiet and orderly manner. We assist patients in keeping their baby when they are in a position to do so. If not we find the infant a home and keep full records as to its disposition, and in all things comply with the law and ordinances.

We invite Physicians to visit our place. Make full investigation before sending us patients. We meet patients at the train and look after them carefully while under our care.

- 1st. It is controlled by a Medical Society.
- 2nd. Its object is to support a medical library, which is open to all physicians.
- 3rd. Its advertising pages are clean—it prints no “reading notices” concerning pharmaceutical preparations. Its advertising pages are distinct from its reading matter.
- 4th. It publishes the best medical literature produced in the northwest.
- 5th. It furnishes abstracts of the most important current medical literature of the world, making a special feature of the Scandinavian literature, which cannot be found elsewhere in English.
- 6th. It is a Medical Journal owned and published by medical men in the interest of, and for the advancement of, the medical profession of the northwest.

# CANCERS —AND— TUMORS

---

**F**OR over 28 years Dr. J. W. Harwell has treated successfully in San Antonio hundreds of cases of Cancers and Tumors from Texas and adjoining States.

Over eighty per cent of the Cancers and Tumors treated healed readily, and no recurrence.

We use no knife or X-ray. We compound our own remedies, which are used by us only. No loss of blood by our treatment. Highest percentage of cures according to Cancer statistics. References and testimonials furnished.

Physicians and surgeons do well to correspond with us before recommending their Cancer and Tumor patients to go elsewhere.

Now located at Rockport, Texas.  
Box 9.

# Medical Department of Western Reserve University.

**A**N endowed medical school. Founded in 1843. Entrance requirements three years in a standard college of liberal arts or science, or full equivalent, including chemistry, physics and biology. Over eighty per cent of present students hold a college degree.

Situated in a city of over 500,000 population. 47,000 dispensary visits in 1907. Five hospitals available for teaching with 1,225 beds. Laboratories are thoroughly equipped and teachers in laboratory subjects devote all their time to teaching and research. Small classes assure large individual opportunity to each student.

Ninety percent of graduates of past five years have taken hospital appointments, and there were places for all. No graduate of past three years has failed before any State Board.

Course is four years of thirty-three weeks each. Session opens on October 1st each year.

# The Temple University

Department of Medicine

Philadelphia, Pa.

For Men and Women

The Eighth Annual Session begins September 14, 1908, and continues nine months, day instruction.

Four Years' Course, Rational-Correlated Curriculum, making one of the most thorough and practical courses in Medical Education yet offered. Clinical, Laboratory and Ward instruction featured. Classes subdivided into small groups and given continuous periods of service in the hospital wards and associated laboratories, providing the maximum of personal association of patient, instructor and student.

The correlated system of teaching by which the same general subject is taught simultaneously in the different departments, introduced by the Temple University several years ago, is now perfected and made to apply to the entire course for both clinical and didactic instruction.

The recent acquisition of the Philadelphia Dental College and Garretson Hospital nearly doubles the capacity for clinical and hospital instruction; added to the Samaritan Hospital, now one of the larger hospitals, affords an equipment in buildings and materials for practical work rarely excelled.

NOTICE.—There is also available a supplemental course of evening instruction covering a minor part of the curriculum.

# Rivercliffe Sanitarium,

BRIDGEPORT,  
CONNECTICUT

**LOCATION.**—The sanitarium is situated about four miles from Bridgeport, Conn., on the main trolley line to New Haven, in a beautiful park of 160 acres, on the shore of the Housatonic River. There are three houses on the grounds, numerous outbuildings and farm buildings, a natural lake, besides about one mile of shore. It is one and one-half miles from Long Island Sound. It is a thirty-minute ride from Bridgeport by trolley, and about a half mile from the N. Y. & N. H. Station at Naugatuck Junction. It is an ideal spot for an institution of this description—pure air, pure water and every facility for promoting health.

HIRAM B. WEST, Physician in Charge, 286 Fairfield Avenue.

# ACTIVE PRINCIPLE TABLETS

OF GUARANTEED HIGHEST PURITY.

Honorably Made for an Honorable Profession.

## The CaPhenin Chemical Company

ESTABLISHED IN 1896

Known among Doctors as "The Iowa Tablet House," manufacture a complete line of the Active-Principle Tablets, fearlessly branding them "Highest Purity," and insuring this quality by a Guaranty, Serial No. 3419, filed with the Government in conformity with the Pure Food and Drugs Act.

When in doubt as to the quality of the tablets you are using, Doctor, secure a supply from this Company and make your own comparison.

Prices from 5 to 20 per cent lower than those quoted by other houses who are making reliable goods.

Best of shipping facilities, Terms reasonable. We invite correspondence. Our products are never advertised nor sold to the laity.

Why the therapeutic value of

### Iodized Calx-Mangan

(Iodized Lime and Manganese)

exceeds that of all other preparations of a like nature in the treatment of **Membranous Croup, Glandular Tubercles, Fibroid Tumors of Uterus, Ulcers, and as a General Alterative**, may be directly attributed to the properties of Manganese embraced in the product.

Manganese is an excellent remedy for use in flatulency, chlorosis, etc., therefore its combination with iodine will readily appeal to the physician. Besides being rich in oxygen, thus making a more stable product, the manganese tends to overcome the irritating effects of the iodine.

## STERILIZED HOSPITAL ABSORBENT GAUZE and COTTON

All of **OUR** Absorbent Cotton is **IN LAYERS**, rolled in tissue. Our long experience in the manufacture of Absorbent Cotton leads us to say that we are producing a line of goods superior to any Absorbent Cotton in the market.

### THE ABSORBENT GAUZE

is noted for its soft, silky feeling, and being entirely free from all sizing, is particularly adapted for surgical dressings and sterilized sponges. Our gauze is used by Hospitals all over the United States and Canada.

We are introducing a new specialty for Hospitals: **Untrimmed Absorbent Gauze Bandages**, all widths, either by the yard or pound.

Do not place your order for any of these goods without first getting our prices.

This course will also include lectures on the use of antiseptics and disinfectants; the employment of enemata and douches, use of catheter and how to sterilize; the method of chemically examining the urine and how to take pulse, temperature and respiration; diseases incident to pregnancy and confinement, including the care and management of the child. In addition the students will attend at the bedside of patients during confinement and a sufficient number of cases will be allotted to each student, with the privilege of summoning one of the instructors should difficulties arise. At the end of four months, students passing the required examination will be granted a diploma of Graduate in Midwifery and Obstetrical Nursing.

**MASSAGE.**—The course comprises lectures and demonstrations in Scientific Massage and Electricity, performed on the living subject.

**ADMISSION.**—The classes are open only to women. Applicants will be required to pass an entrance examination. The course is continuous so that a student may enter at any time.

Application should be made to Dr. R. O. MARCOUR, 303 Machecha Building.

**TUITION FEES.**—Midwifery, Obstetrical Nursing and Massage, \$100.00. Matriculation, \$3.00. There is no extra charge for the diploma. The tuition fee is arranged in partial payments. Engrössing fee, payable when graduating, 50 cents. Books at cost.

Students desiring private instructions can be accommodated at reasonable terms. Private instructions are given only by the members of the regular staff of instructors.

Separate classes in English, French, Italian, Spanish and German.

The staff of instructors of the New Orleans College of Midwifery and Training School for Women consists of men, all of whom are graduates of recognized Medical Colleges and are all ethical practitioners. They therefore, are best fitted to conduct the education of those who intend to enter upon professional life.

**FACULTY.**—R. O. Marcour, M. D., Wm. G. Troesch, M. D., E. J. Richard, M. D., Alfred A. Pray, M. D., G. G. Gonzalez, Ph. M.

## Mutto's Hotel

ABITA SPRINGS, LA.  
(St. Tammany Parish)

OPEN THE YEAR AROUND

The hotel is located on a beautiful site in the center of the celebrated Ozone Belt of St. Tammany Parish, fifty-six miles from New Orleans on the East Louisiana Railroad, and five minutes' walk from the station.

The hotel has recently been renovated, enlarged and refurnished and is fully equipped to accommodate summer and winter guests with good rooms, a fine cuisine, hot and cold baths, steam heat, sanitary closets, and with gas and electricity throughout house and grounds.

The grounds comprise 130 acres on which there are cottages for families, two delightful springs and a sulphur well, which insures to guests hot and cold sulphur water baths.

For the amusement of the guests the hotel is equipped with outdoor sports, billiard and pool tables, a large dancing pavilion and a reception hall.

There are several fine springs in the locality, all noted for their health giving properties. These waters are for the healing of kidney trouble (uric acid, Bright's disease, etc.), liver trouble, dyspepsia, chronic diarrhoea, catarrh, constipation, nervous and general debilities.

The climate being mild and free from dampness, is highly recommended by the best physicians, for the relief of lung trouble.

How to get to Abita Springs: There are two trains daily from New Orleans over the N. O. & N. E. & E. L. R. R. (crossing Lake Pontchartrain, a distance of 6½ miles ride over the water). Special trains to and from Abita and New Orleans during Mardi Gras are made up for the convenience of the public.

We give the analysis made by Prof. A. L. Metz, of the Tulane University, of New Orleans, of this Spring as follows:

# The Sweet Babee NURSING BOTTLE

**PATENTED**

It is strictly hygienic in every respect. Can be easily cleaned with a towel on the inside. In fact the bottle is a tube or cell with a large mouth made especially for the purpose intended. The nipple is the best shaped nipple made. The wide bottom of the nipple allows a much larger part of the quantity of the bottle to be withdrawn before a vacuum is created than is possible where small neck bottles are used; therefore it is impossible for the nipple to collapse on account of the vibration of the flexible wide bottom of the nipple which will be appreciated by everyone using the Sweet Babee Nursing Bottle. Milk is of such a sticky substance that it requires hand washing on the inside; otherwise it is subject to germs. The Sweet Babee Nursing Bottle will fit any sterilizer case required. Prices quoted on Application.

# J. C. SCHNOTER'S KNITTED SUSPENSORIES

Established 1870

**J. C. SCHNOTER'S**  
Army and Navy Suspensory.

Linen, 75c.; Best Silk, \$1.00. Guaranteed and manufactured solely by

**THE J. C. SCHNOTER CO.,** (Headquarters), 523 Sixth ave., near 31st St. New York, U. S. A.

Are the only perfect ones on the market. The pouch being seamless, is elastic, easily adjusted, making a delightful support; perfectly constructed for comfort and recreation. A permanent relief for Varicocele (Cirsocoele), Hydrocele, etc. The only Hygienic Suspensories that have the full indorsement of Physicians and Surgeons. Nothing but the best and purest of materials are used in their construction. These bandages have stood the test of the entire world since 1870, and still lead as the best, despite the many worthless imitations that have sprung up since. Little was known of any other make at that time. Ask your druggist for the "**GENUINE SCHNOTER'S SUSPENSORY BANDAGES.**" (Look for our trade-mark, J.C.S.) If he has not our make in stock, and refuses to get it for you, send direct to us and we will mail to you in plain wrapper, on receipt of price. ## DOCTOR! THIS IS WORTH KNOWING

THE J. C. SCHNOTER SUSPENSORY BANDAGES — "It is a well-known fact that many suspensory bandages on the market are not manufactured on hygienic or correct surgical principles at all. They lack shape, and therefore are useless as a support. Some are made of cheap colored material, causing as a result eczematous scrotal eruption. Some are made, on the other hand, of so thin a material that, after being worn for a day or two, stretch to such an extent as to be perfectly valueless. There is a firm in New York, however, who have for many years made a suspensory bandage WHICH IS A BANDAGE, and which has secured for the firm the endorsement of the medical profession. The house referred to is J. C. SCHNOTER CO., of 523 Sixth Avenue, New York City. This Company builds every appliance on true and correct surgical principles, so that it is little wonder that they have attained to the position of confidence already reached." —Canadian Journal of Medicine and Surgery, September, 1899.—Ask your druggist for the "GENUINE SCHNOTER'S SUSPENSORY BANDAGES." (Look for our trade mark, J. C. S.) If he has not our make in stock, and refuses to get it for you, send direct to us and we will mail to you in plain wrapper, on receipt of price. # KELPINE

## (Rogers) ALTERNATIVE TONIC

FORMULA—Kelpine contains Iodide of Iron, Iodide of Ammonium, and Iodide of Potassium, representing the minimum dose of the three Iodides. As a general Alternative Tonic, is less irritating to the stomach than most preparations. Elimination is stimulated in diseases resulting from stasis of the lymphatics.

DOSE—One to two drams in one-half glass of water before meals. M.-D. Co., JAMESTOWN, N. Y.

**CHOOSE A STAMMERING SCHOOL ADVISEDLY.** Do not attend and do not recommend a school for the cure of stammering simply because it guarantees a cure. Stammering may be stopped by the substitution of something as bad or worse. The Reed School gives a steadily progressive and very effective course of instructions in NATURAL SPEECH. Booklet sent on application. (See other right top lines.) **REED SCHOOL, 371 Hubbard Ave., Detroit, Mich.**
